

Florida Governor Blames Ike, Faubus For School Violence At Little Rock

NEW YORK—Gov. Collins of Florida declared recently that both President Eisenhower and Governor Faubus of Arkansas must share the blame for the school integration violence at Little Rock last year.

In a signed article in the new issue of Look Magazine, Collins said the President was at fault "for not anticipating the explosive force of the situation and moving quickly to head it off."

"I believe that the President could have done this at Newport, or that his attorney general, or others acting for him, could have done it in face-to-face discussions

at Little Rock," Collins said. He blamed Faubus "for using his police powers affirmatively to prevent enforcement of a judicial order."

A Little Rock crisis somewhere, however, was almost inevitable the Governor continued, "because the courts are now placed in the unnatural, and I believe untenable, position of acting in executive and legislative, as well as judicial capacities."

Collins charged that the Supreme Court "improperly" has set itself up as the governmental instrument to develop integration procedures. Stating that integration decisions

should be made on a local level, he urged the establishment of Civil Rights Commissions in each state, with members appointed by the President upon recommendation of the governor.

"There are countless Southern communities," he wrote in Look, "where it will be many a day before desegregation can be accomplished without race rioting. Yet, under present procedures, such could be provoked irresponsibly at any time."

"We are in a situation which the National Association for the Advancement of Colored People decides where and when to desegregate. These are decisions that should rest with an agency created by law and responsible to all the people."

Chairman of the Southern Governors' Conference, Collins said he is determined to see that segregation in Florida's public schools and recreational facilities will continue in any community where its abandonment would cause "deep and dangerous hostility."

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Relieves Pain, Stops Itching as it Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be

a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne) — the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form, called Preparation H.* Ask for individually sealed, convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded.

A & T Alumni Hold Annual Conference

GREENSBORO — The A & T College General Alumni Association, annual meeting here at the college last Saturday, drafted resolutions which called for larger financial support for the college by the State and its own membership and commended the president for his able administration.

The group voted to turn "its fullest energies" to the newly adopted Annual Alumni Giving Program which aims at raising 100,000, to support its scholarship program and called upon State officials, members of the Legislature, Board of Higher Education to use their influence in support of the recent request made by the A & T Board of Trustees for needed improvements to meet qualifications for membership in the Southern Association of Secondary Schools and Colleges.

The Association also voted to call reunions for the classes of 1923, 1933, 1936 and 1948 for the annual homecoming to be held here at the college on October 31-November 2.

The visiting alumni heard Dr. Warmoth T. Gibbs, president of the college, deliver the main address at the annual luncheon, held in Murphy Hall and attended a baseball game in the afternoon between the Alumni All-Stars and the A & T College Aggies.

The meet drew the largest attendance ever in the long history of the organization. Howard C. Barnhill, Charlotte health educator, is president of the organization.
