

Open To Negroes:

CAREER OPPORTUNITIES

By STAFF WRITER
REWRITE MAN

If a person has a command of the English language, both oral and written, we recommend the position of rewrite man with a newspaper.

The average rewrite man's work can be divided into two parts both within the scope of rewrite work. He either does his rewrite from clippings of items appearing in other papers than his own, or he rewrites stories dictated to him over the telephone by reporters on the scene of action.

Newspapers are permitted, when they subscribe to the same wire

services, to use all or any part of certain items appearing in other papers. The rewrite man rewrites the articles to conform with the style of the paper he is working for.

Through practice this individual develops an uncanny ability to boil a large array of facts down to a short item containing all the essentials.

The rewrite man must be speedy and unhesitating, and yet he must be master of concise and accurate expression. Somehow he has no time to become involved in long sentences and fancy words. He develops an ideal news style.

You may want to know about salary consideration. On small papers, the rewrite man may start at \$60 per week. Large newspapers will pay him from \$70 to \$80 weekly minimum. On the other hand the highest may run up to \$250 or \$300 a week depending on ones ability.

While many men have picked up this writing ability most men find that training in a school of journalism is very beneficial. Most of the large universities have schools of journalism. If you are interested in taking this training, write the dean of some school of journalism.

PLANNING MATHEMATICS INSTITUTE: Dr. James A. Boyer, president of St. Augustine's College, is seen studying plans of the Mathematics Institute with Dr. Prezell Robinson, Dean and R. E. Matthews who will conduct the Institute for mathematics teachers soon.

288 Students Receive Degrees At Hampton Institute "Finals"

HAMPTON, Va. — The 85th commencement exercises at Hampton Institute were held Monday, June 2, with 288 seniors and graduate students from 20 states, the Virgin Islands, and the British West In-

lands, receiving their master's and bachelor's degrees on the college campus.

Michigan's Governor G. Mennen Williams addressing an audience of 2000 detailed the responsibilities of a mature American and outlined the challenges facing this nation in the second half of the 20th century.

"We are being challenged by the soviet union to a contest for the allegiance of the hearts and minds of men everywhere on earth," he said. "The free world can meet this challenge by demonstrating that freedom serves the needs of the people better than communism ever can. We can demonstrate this only if we grow in social maturity, in economic strength and in political responsibility."

Four graduating seniors, two alumni and two members of the college staff were honored during the commencement exercises. Alumni medals for outstanding achievement in their professions were presented to Junius Edward

Hankins, 29, president of the Marmoth Life and Accident insurance company, Louisville, Kentucky, and Major Osborne Ernest Scott, 28, U. S. Army chaplain, Fort Slocum, New York.

MAIN SPEAKER—Dr. James A. Boyer, President of St. Augustine's College, Raleigh, delivered the main address to the N. Y. All-Born Alumni Chapter of St. Augustine's College on Sunday evening, June 8th, at 7:00 p.m. in the St. Luke's Episcopal Church of 77 East 232nd Street, Bronx, N. Y. Dr. Boyer, a leading southern educator, is a graduate of St. Augustine's, Atlanta University and the University of Michigan.

NCC Commencement Orator Says Integration Will Come

DURHAM — Dr. Kenneth Irving Brown, principal speaker at North Carolina College's 47th commencement rites Tuesday, told the graduates that one of their major tasks will be "to help prepare the Negro American young man and woman to offer magnanimity and forgiveness to his white brother."

Brown, who is executive director of the Danforth Foundation, told the commencement audience, which included 577 candidates for undergraduate, graduate and professional degrees, that race relations are the major issue in America today.

And as such, he continued, they affect our international relations. "For our friends across the water—those in Asia and . . . those in Latin America too see America largely through the glasses of racial prejudice."

The speaker concentrated on implications of recent Supreme Court decisions on education in the South. Said he, "Integration will come. It is written in the stars; it cannot be denied. But integration is not enough. There must be hatred or bitterness, or jealousy or envy, no hostility or selfish pride toward any other living human being."

To prepare for this and other tasks that face them as Americans, Brown said the graduates must be "worthy with the trained mind, with the dedicated spirit, and with a willingness to accept the heavy load of being responsible citizens."

Asserting that more is needed in today's world than the trained mind, he declared, "I am not willing to judge the effectiveness of college education primarily on the

evidence of a good marriage or a successful business career. I would judge it rather on what has happened to a man's intellectual habits and of his outreach to others."

In this connection, the former college president continued, "I will

not agree that education itself is heartless, normally natural, lacking in its concern for the welfare of men. Education at its best is deeply dedicated to the welfare of humanity and for the wise betterment of the peoples of the earth."

Short Circuit Wire Blamed:

Faulty Wiring Causes Fire At College; Damage Great

WESTPORT, Miss. (ANP) — Investigation of a fire which destroyed a dormitory at Mary Holmes junior college last week revealed the blaze might have started from a short circuit in an electrical wire in the ceiling of

the building.

A student, asleep in the building, discovered the blaze and aroused two other persons. One of the three suffered minor burns. Damage was estimated at \$50,000. The school, operated by the

Asthma Formula Prescribed Most By Doctors—Available Now Without Prescription

Stops Attacks in Minutes—Relief Lasts for Hours!

New York, N. Y. (Special)—The asthma formula prescribed more than any other by doctors for their private patients is now available to asthma sufferers without prescription.

Medical tests proved this formula stops asthma attacks in minutes and gives hours of freedom from recurrence of painful asthma spasms.

This formula is so effective that it is the physicians' leading asthma prescription—so safe that now it can be sold without prescription—in tiny tablets called Primatens®.

Primatens opens bronchial tubes, loosens mucous congestion, relieves taut nervous tension. All this without taking painful injections.

The secret is—Primatens combines 3 medicines (in full prescription strength) found most effective in combination for asthma distress. Each performs a special purpose. So look forward to sleep at night and freedom from asthma spasms . . . get Primatens, at any drugstore. Only 98¢—money-back-guarantee.

90th "Finals":

Sen. Cooper Speaker At Howard Univ.

WASHINGTON, D. C. — Members of the 1958 graduating classes at Howard University last week were challenged to put their best thoughts to work in order that the last vestiges of inequality in America may be removed. The suggestion came from U. S. Senator Sherman Cooper (R. Ky.) who was the principal speaker at Howard's 90th annual Commencement.

During the exercises, which were viewed by some 8,500 persons, a total of 634 degrees were conferred by Dr. Mordcaai W. Johnson, president of the University. Among the awards were three honorary degrees and two Doctor of Philosophy degrees.

The Ph.D.'s, which were given in chemistry, were the first degrees higher than the Master's to be awarded in Howard's 91-year history.

In the two-hour ceremony, which had been delayed for an hour as Senator Cooper debated the Administration's \$3 billion foreign aid bill on the floor of the Senate, the Kentucky legislator "old the graduates that full social justice for all people cannot be achieved if they succumb to a defeatist attitude."

"I would have you remember that the greatest badge of courage goes to those who are aware of danger, but who nevertheless affirm the continuity of life and experience in the midst of danger," he said.

The Senator said that great pains have been made in civil rights, and that he was confident that the nation is moving in the right direction in this area. He warned his audience against complacency, however, and called for a renewal of "our faith and confidence that we can move ahead."

"Unless and until the Constitution is altered by the procedures within the Constitution itself, it is the duty of all to adhere to it, to honor it, and to defend it," Senator Cooper declared. "And this is a duty which every citizen, including every public official, must recognize, support and enforce."

Having been instrumental earlier in the day in defeating an amendment to the foreign aid bill which would have curtailed sharply U. S. economic aid to India, a nation where he formerly served as U. S. Ambassador, Senator Cooper said that it is the duty of the United States to reduce the unbalance of opportunity and living standards in the world.

White Killer Of Tan Nurse Gets Life

HAMILTON, Ohio — (ANP) — Shirley Edward Campbell, a white hospital orderly, was convicted of the first degree murder of a student nurse in Butler County common pleas court last week.

Following a recommendation by the jury for mercy, Judge P. P. Bell sentenced Campbell to life imprisonment in the Ohio penitentiary.

Campbell was charged with hurling student nurse Sylvesta Andy, 20, to her death from the roof of Mercy hospital when she resisted his advances last June 17.

Cotton gives employment to more people than any other industry in North Carolina.

OH, MY ACHING BACK

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exercising or stress and strain—you want relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless uncomfortable feeling.

Doan's Pills work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains, 2. by soothing effect on bladder irritation, 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes. Enjoy a good night's sleep and the same happy relief millions have for over 60 years. Now, large size saves money. Get Doan's Pills today!

Bishop Reid Asks Prayers For Schools

PORTSMOUTH, Va. (ANP) — Over 300 AME delegates, leaders and visitors bowed in silent prayer last week at Emmanuel AME Church for Gov. J. Lindsay Almond Jr. of Virginia. The Rt. Rev. Frank Madison Reid, bishop of the Virginia annual conference, asked prayers for the governor with the hope that he would face the crisis raised by the school desegregation decision "on righteousness and morality."

The meeting was the closing activity of the four day 93rd session of the conference. The bishop said there was need for prayer so that "God will touch the Christian of Virginia before the testing hour comes in September."

Bishop Reid emphasized several times during the conference that the ballot was an important instrument in the struggle of American Negroes for first class citizenship. He directed that every AME church in the conference set up a committee to encourage members to qualify to vote.

The same thought was enounced in a resolution suggesting the churches observe quarterly "Ballot Box Hour" to "enlighten members and friends on the use of the ballot."

Conceded men often seem a harmless kind of men, who, by an over-eveing self-respect, relieve others from the duty of respecting them, at all.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Relieves Pain, Stops Itching as it Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be

a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®) — the discovery of a world-famous research institution.

Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H. Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded. *Reg. U. S. Pat. Off.
