Methodists Hold Area Leadership School At Greensboro Institution

GREENSBORO—A total of 105 participants, about 50 per cent of them attending for the first time, took part in the Baltimore Area Leadership School of the Methodist Church which closed a one-week session at Bennett College on Saturday.

A surprise visitor was Bishop Edgar A. Lova, resident bishop of the area, who spent Thursday with the group. Largest representation came from the Delaware Conference, with 39, followed closely by the Washington Conference with 38. There were 23 from the North Carolina Conference and five from the East Tennessee Conference, according to Dean Howard A. Bailey, of Yeaton, Pa.

Among the speakers heard were the Rev. Trevor Jones, pastor of Tindley Temple, Philadelphia, Pa.; the Rev. S. L. Townsend of Lenoir; Mrs. Beryl Williams, of Baltimore and the Rev. Richard L. Clifford, pastor of Centennial Church, Baltimore, Md.

Following the final Saturday morning classes, there was a communion service in Pfeiffer Chapel, with Dr. Major J. Jones, pastor of Stanley Methodist Church, Chattanooga, Tenn., conducting the meditation. Members of the staff were luncheon guests of Dr. Willa B. Player, president of the college, on Thursday.

In addition to classes and workshops, there were a number of recreational events, including a softball game and an informal party on Friday night.

Wilson White, Civil Rights Chief, Says Government Restricted In Rights Field

SPRING LAKE BEACH, N. J. (AP)—Stating there is a serious misconception of the enforcement power of the federal government in civil rights cases, W. Wilson White, newly appointed head of the Justice department's Civil Rights division, told the recent annual meeting of the Pennsylvania Bar association that the government is constitutionally restricted in the field.

Speaking on "Federal-State Relations in Law Enforcement" White declared that only three statutes of the federal criminal code specifically give the government jurisdiction in civil rights matters. Two are criminal, and one, civil.

The criminal statutes are sections 241 and 242 of the federal criminal code and are intended to prevent the state from infringing upon or denying the civil rights of citizens. Where there is willful violation of the constitutional rights of citizens under the 14th Amend-

Garden Time

By M. E. GARDNER

A frequent question: "How can I sterilize small quantities of soil?" Soil sterilization is important to kill soil-borne disease organisms and nematodes. It is comparatively simple to accomplish and I suggest three methods for use around the home.

The first—Prepare your soil and place in boxes, or containers in which the plants are to grow. Place these in a pre-heated oven at a temperature of 160 degrees F for 30 minutes.

The second—Use a large container and place the boxes or pots of soil on a rack with water below the rack. Bring the water to the boiling point and steam the soil for at least one hour.

The third—A chemical method using formalin (formaldehyde). Use one part of formalin to five parts of water. This will be your basic formulation. Add 2 1/2 table-spoons of this solution to each bushel of soil to be treated. Two methods are suggested. Place the soil on a concrete floor, sprinkle the solution over the soil and mix thoroughly with a shovel. Or, place the soil on a piece of heavy canvas and roll it by holding the corners.

In either case, place the soil in a tight container for 24 hours. Then remove the cover and let some of the gas escape. After this is done, turn the soil out of the container and turn several times with a shovel, or on a canvas, until the odor of the formalin is completely gone.

A large package or trash can may be used to advantage.

Watch out for aphids, red spider mites, lace bugs, bean beetles and all the rest. Malathion will control many of the common pests. Harvest sweet corn at the proper stage of maturity for flavor and quality and keep it cool in order to preserve the sugar content. I reminded you last week about preparing for the fall garden so don't forget to do this. You will be glad you did.

STRENGTH FOR THESE DAYS

from The Bible

... there is no God like Thee... Who keeps covenant with Thy servants that walk before Thee with all their heart— (I Kings 8, 23.)

Loving God, living and being and moving in Him, is no part-time just-on-Sunday practice if we are to fulfill ourselves as His children. The truly blessed are those who love and obey Him "with all their hearts" every living moment.

State College Hints

READ LABELS FOR FABRIC CARE — More whites and pastels mean you'll need to keep up on washing techniques and spot removals, too. Don't take a chance that the dress you buy will lose its stiffening and go limp when you wash it. Learn which names on labels mean a fabric will hold up in washing.

Any cotton or rayon labeled "crease resistant," "minimum care," "drip dry," "little or no ironing" should not be put in a wash with chlorine bleach, unless the label says it can be used. The bleach can cause the fabric to turn yellow and split when you press it. Borax and powder bleaches are safe to use when needed.

Materials with these labels should never be put through a wringer but can be dried in a drier. They should not be starched.

They should not be washed until oily or greasy stains have been removed. The wash may get these stains. Use a liquid detergent or a commercial spot remover to take out the stains.

Remove perspiration stains immediately. Wash or sponge with warm water and soap or liquid detergent or a commercial spot remover to take out the stains.

Remove perspiration stains immediately. Wash or sponge with warm water and soap or liquid detergent. Models wear dress shields to avoid these stains.

To remove Coke stains use diluted hydrogen peroxide. Mix one part hydrogen peroxide with 10 parts of water.

Chained to Kitchen Chores?

Free Yourself with a Freezer!

That ball and chain routine at mealtimes can put the drags on a busy gal around the house. So why not free yourself from extra time, work and worry with the carefree convenience of an electric freezer?

Want a change of pace from meal monotony? Then satisfy that yen for juice-poppin' strawberries or fat kernels of fresh corn. No matter the season, they're yours to enjoy with a modern electric freezer.

Unexpected company drops in? ... please madam, no mad-dash to the store. Just delve into the cool depths of the frost-tipped food store you'll find in your freezer. Fresh as the dew, there's a frosty array of good things to cook, heat, or thaw and eat.

No better time than the growing season to add spice and variety to meal planning. Visit an electric dealer soon and look over his display of electric freezers or the happy combination of a refrigerator-freezer. See for yourself how you can free yourself with the care-free convenience of an electric freezer.
