Tormenting Rectal Itch Stopped In Minutes

Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles

New York, N. Y. (Special) - | One of the most common afflictions is a condition known as "itching piles". It is most embarrassing for the victim during the day and especially aggravating at night.

No matter what you've used without results - here's good news. For the first time, science has found a new healing sub-stance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids -without surgery. Medical sci-ence has proved this substance produces a remarkably effec-tive rate of healing. Its germkilling properties also help prevent infection.

In one hemorrhoid case after another "very striking improve-

ment" was reported and veri-fied by doctors' observations. This improvement was maintained in cases where doctors' observations were continued over a period of months! Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration.

The secret is this new healing substance (Bio-Dyne*) - discovery of a world-famous research institution. This substance is now obtainable in ointmentor suppository formknown as Preparation H.* Ask for Preparation H suppositories (convenient to carry if away from home) or Preparation H ointment with special applica-tor. Absolute satisfaction guaranteed or money refunded. "Reg. U.S. Pat. Off.
