

BRIDAL SWEET — Left over from an earlier wedding in London, 14-month-old Clareanna Crossdale, left, gets into a following ceremony as she sniffs the flowers held by four-year-old Linda Freeman at St. Michael's Church. Little Clareanna became separated from the rest of the bridal party after the marriage of a Jamaican couple. (UPI PHOTO.)

Workshop On Credit Unions Is Conducted At A & T College

GREENSBORO — Credit union officials attending a statewide Credit Union Workshop conducted recently at A & T College, were brought up-to-date on the latest methods and techniques in promotion and operations.

Workers from most of the sixty-five credit unions operated by Negroes throughout the State were on hand for the education meet, sponsored jointly by A & T College and the North Carolina Credit Union League.

Luther C. Hodges, Winston-Salem, president of the North Carolina Credit Union League, who

spoke at the opening general session, told the workers that credit unions can help solve many of our economic problems and urged his audience to a bigger and sustained campaign to recruit new members and new resources. He said that the program is growing in the state to such proportions that a new structure to house headquarters for the State organization is being considered in Greensboro, in the very near future.

B. L. Webster, Greensboro, managing director of the State organization attributed much of the suc-

cess of credit union operations in North Carolina to its early beginnings. He said that this State was one of the first to enact legislation providing for these operations. A welcome message from the college was delivered by Dr. G. F. Rankin, acting dean of the School of Agriculture at A & T.

The afternoon session was mainly concerned with smaller group workshops dealing with specific credit union problems.

J. H. Wilson, Elizabeth City and Rev. F. S. Williams, Greensboro, served as co-chairman of a workshop for directors. The consultants included: J. E. Herschleb, Charlotte and Mr. Hodges and Dr. Rose Butler Brown of Durham was the recorder.

The treasurers' group had P. D. Winston, Sr., Tarboro and J. E. Tillet, Edenton, as chairmen and Mrs. H. L. Mitchell, Gatesville as recorder. The consultants were: H. L. Maiden and V. E. Lindsay, both of Greensboro.

A credit committee session had Nathaniel Barber, treasurer for the city of Gastonia and T. C. Hairston, Winston-Salem as chairmen and Mrs. Ruth M. Wiley, Madison, as recorder. J. E. Grigsby, Charlotte and H. M. Rhodes, Credit Union National Association, Washington, D. C. B. W. Harris, director of Short Courses at A & T, under whose supervision the meet was conducted, had reporters that the group had voted to hold the workshop as an annual feature for a full week duration beginning next year.

1,500 Attend Chapman Reception In Washington, Honoring Dr. Nkrumah

WASHINGTON — (ANP) — Shaking hands and kissing babies in true politicians' fashion, Ghana's Prime Minister Kwame Nkrumah greeted some 1,500 guests at a reception given in his honor at the Sheraton-Park hotel Thursday evening by Ambassador and Mrs. D. A. Chapman.

The Prime Minister came a half hour early to receive the Chiefs of Diplomatic Missions before the formal reception got under way at 6:30 P. M.

THE WAY KOREAN AMBASSADOR LEADS

"Put Negro Candidates On Ballot," Professor Urges

ATLANTA — (ANP) — Both Republican and Democratic organizations in the South were urged by Dr. L. D. Reddick, professor of history at Alabama State college, to place Negro candidates on their ballots if they expect to win the support of Negro voters.

Dr. Reddick, on Tuesday, spoke at a dinner of the Fulton County Citizens Democratic club that is launching a campaign to place Prof. C. A. Baccote of Atlanta university and Attorney J. C. Dougherty on the party's executive committee.

The historian complimented Georgia Republicans for having Negroes integrated in the party set-up. But declared that the next step should be taken and Negro candidates be supported by the party organization for public office. Likewise, he commended Georgia Ne-

gro Democrats for electing two Negroes—Attorney A. T. Waldon and Dr. Miles to the executive committee of Atlanta. This body operates the election machinery for that city.

Dr. Reddick also called for assistance from "eggheads" and organizers in the over registration campaign of the Southern Christian Leadership Conference and the NAACP. These organizations, he said, already have plenty of orators but need voter's clinics and the systematic organization of the Negro community, block by block, neighborhood by neighborhood.

The dinner, held in the Wakefield Hotel, was arranged by "Chief" W. H. Aiken, Attorney Waldon and Warren R. Cochrane, officials of the organization.

and the Ambassador of Ceylon, He also welcomed the Ambassadors of Philippines, Australia, Austria, Afghanistan and Norway.

Israel's Ambassador was too late for his protocol decided which past the long waiting place. But upon his arrival was met by Chief of Protocol Wiley Buchanan so that he explained the meet the Prime Minister. The Israeli representative explained that he had just 36 hours of leave in Jerusalem when he was sent back to Washington to greet the Ghanaian's Prime Minister. So he brought greetings from the Prime Minister of his country Ben Gurion.

NOTABLES IN RECEIVING LINE After officially meeting the heads of Mission in the Continental Room of the hotel, the host moved into the Ballroom to form a receiving line to greet other guests. This line was composed of Ambassador and Mrs. Chapman and the Prime Minister. With them were the Minister of Trade and Industries and Mme. Botis; the Minister of Information and Broadcasting Kofi Baako; the Permanent Secretary,

Ministry of Defense and External Affairs, A. L. Adu; and the Acting Secretary of the Cabinet, Enoch Osoh.

Of the 2,000 guests invited to this reception approximately 1,500 showed up. Perhaps the youngest among them was the 10-month-old Kwame Olatunji, son of Mr. and Mrs. Michael Babatunde Olatunji. The father of this plump, sober-faced youngster is the president of the All African Students Union of the Americas. He was brought all the way down from New York by his parents to see the Prime Minister from whom he was named.

Accurate records are essential to top-flight dairy production. Don't wait until all of your tobacco produces flowers before topping.

When thou hast eaten and art full, then thou shalt bless the Lord thy God for the good land which he hath given thee. —(Deuteronomy 8, 10.)

These words of Moses apply as much to us today as they did to the Israelites after he led them to freedom from captivity in Egypt. Surely we have been given a land of freedom and plenty. Surely we should give thanks for it.

GARDEN TIME
m. e. gardner
n. c. state college

Select a slack time during the summer months to get your sweet potato storage house ready for curing and storing when harvest time comes. Used baskets and crates should be cleaned and disinfected as well as the walls and floor of the storage house. You may either spray or fumigate.

For houses that cannot be made air-tight, spraying with copper is best. Use one pound of copper sulfate (Bluestone) to 10 gallons of water. Spray the walls thoroughly and all containers inside and outside. The containers may be dipped in the copper solution but spraying is less trouble.

Copper sulfate has a very decided corrosive effect on metal parts of the sprayer. Wash the sprayer thoroughly with lime water to neutralize this effect of the copper.

If your house can be made air-tight, you can use either chloropicrin (fear gas) or sulphur for fumigation. Chloropicrin should be used at the rate of one-half pound for each one thousand cubic feet of space. Finely ground sulphur can be burned at the rate of one pound per one thousand cubic feet of space. The burning of sulphur may create a fire hazard so take precautions.

When either fumigant is used close the house for 24 hours and then air out well before entering.

A relatively high humidity should be maintained during fumigation in order to do an effective job. Thoroughly wet the floor and side walls 6 to 10 hours before fumigating.

Both chloropicrin and sulphur are very irritating to the respiratory passages and should not be breathed even in low concentrations. Be careful!

What about the growing crop? Since the weather has been so unusual this spring and summer, you may run into a nitrogen deficiency if heavy and prolonged rains have been the rule in your community. Watch out for this.
