## VA Answers Veterans' Questions On Insurance, Schooling, Loans

WASHINGTON—(ANP)—The Veterans Administration has released another of its series of question and answers to veterans on their rights and benefits under the law.

This week's answers deal with such matters as GI insurance, schooling and loans. The questions and answers follow.

Q—I'm a Korea veteran and, since my discharge, I have been operating a small business of

my own. I would like to expand it. Can I use my GI loan?

A—Yes. Under the law, you may use a GI business loan either for the purpose of undertaking or expanding a legitimate business venture.

Q—This fall I expect to take a night course in law under the Korean GI Bill. I will be attending an accredited school, but only at night. For purposes of my VA training allowance, will this be considered full-time or part-time training?

A—Your night school training will be measured as not more than three-quarters time training. It may not be considered as training full time.

Q—A young man of my acquaintance, the child of a World War II friend, now deceased, is

eligible for schooling under the War Orphans Education Act. He needs some special program of education, however, because of a disability. Does the law make provision for that type of training?

A—Yes. The law includes special provisions for training eligible young men and women overcome the effects of disabilities.

Q—We've just had a baby boy born in our family. I still want my wife to remain as beneficiary on my GI insurance policy, but if I wish to have my son's name also there as beneficiary in case of my wife's death can I do that?

A—Yes. Your son would thus be named as contingent beneficiary. Got a change of beneficiary form at any VA office, complete and mail it to the VA District Office where you pay your premiums.

## For Women

BY BETTY COOK  
(For Associated Negro Press)

**TURN SOME PEACHES INTO  
JAM**  
Enjoy fresh peaches in many  
ways—make puddings, sauces,  
shortcakes, pies and ice cream.  
But be sure to capture some of  
that wonderful flavor in jams and  
jellies, and store it on the pantry  
shelf for a later day.

You'll be glad you did when you  
open a jar to go with hot break-  
fast breads, or make sandwiches  
and sandwiches for the children.  
Jam and jelly making is not the  
choir it used to be. Liquid and  
powdered fruit peaches now help  
you to make perfect jam and  
jelly in only a matter of minutes  
after the fruit is prepared. These  
peaches assure perfect success every  
time, and the jams and jellies  
made the short-bolt way are  
bright and clear; the flavor like  
that of the fresh fruit. Use these  
Kitchen Tested recipes for making  
peach jam and for a delicious  
jam made of a combination of  
peaches and plums.

**PEACH JAM**  
YIELD: About 9 medium glasses  
(4½ lbs. jam.)  
4 cups prepared fruit (about 3  
lbs. ripe peaches)  
5 cups (2½ lbs.) sugar  
1 box (2½ oz.) powdered fruit  
pectin

First, prepare the fruit. Peel and  
pit about 3 pounds fully ripe  
peaches. Grind or chop very fine.  
Measure 4 cups into a very large  
saucepan.  
Then make the jam. Measure  
sugar and set aside. Add  
powdered fruit pectin to fruit  
in saucepan and mix well.  
Place over high heat and stir  
until mixture comes to a hard  
boil. At once stir in sugar.  
Bring to a full rolling boil and  
boil hard 1 minute, stirring  
constantly. Remove from heat  
and skim off foam with metal  
spoon. Then stir and skim by  
turns for 4 minutes to cool  
slightly, to prevent floating  
fruit. Ladle quickly into glass-  
es. Cover jam at once with  
1-2 inch hot paraffin.

**PEACH AND PLUM JAM**  
YIELD: About 11 medium glasses  
(5½ lbs. jam.)  
5 cups prepared fruit (about 2  
lbs. ripe peaches and 1½ lbs. ripe  
plums)  
5 cups (2½ lbs. 10 oz.) sugar  
1 box (2½ oz.) powdered fruit  
pectin

First, prepare the fruit. Peel and  
pit about 2 pounds fully ripe  
peaches. Chop very fine of grind.  
Pit (do not peel) about 1½ pounds  
fully ripe plums. Cut in small  
pieces and chop. Combine fruits  
and measure 5 cups into a  
VERY LARGE saucepan.  
Then make the jam. Measure  
sugar and set aside. Add powdered  
fruit pectin to fruit in saucepan  
and mix well. Place over high  
heat and stir until mixture comes  
to a hard boil. At once stir in  
sugar. Bring to a full rolling boil  
and boil hard 1 minute, stirring  
constantly. Remove from heat  
and skim off foam with metal  
spoon. Then stir and skim by  
turns for 5 minutes to cool  
slightly, to prevent floating  
fruit. Ladle quickly into  
glass-ess. Cover jam at once

## Lumberton Tobacco Marts Open, One Of Best Years Expected

LUMBERTON—News comes from Lindsey M. Clements, Jr., sales supervisor for the Lumberton Tobacco Market, that opening day will be on Tuesday, August 5th, with expectations of the best market in several years. Tobaccoists and Warehousemen of Lumberton, all major buying companies feel that they will be able to offer best crop of bright leaf tobacco ever produced in the Lumberton area. Lumberton warehousemen feel that the farmer never gets full area. Lumberton warehousemen paid for the effort he puts forth in producing a crop of tobacco and in view of this fact, are cooperating to see that the farmer receives the most courteous attention and the most satisfying dollar during the 1958 season.

Lumberton's business establishments, including two of North Carolina's finest banks, both with drive-in branches, along with the finest restaurants, hotels, motor courts, and shopping facilities are waiting to serve you for your convenience and comfort during this tobacco season.

The Lumberton Tobacco Market has been serving the farmers of North and South Carolina for over sixty years with three full sets of buyers, three redrying plants, over thirty acres of floor space, selling sixty-six hundred baskets daily at six of the highest wholesale prices on the border belt.

Mr. Clements urges you, Mr. Farmer, to take your choice of either of the following firms that make up the Lumberton Tobacco Market. Carolina Warehouse is under the management of J. E. Johnson, Leroy Townsend, Marvin Roycroft, John Curtis, Jr. and Johnny Roycroft.

Cooperative Warehouse is managed by C. E. McLaughlin. Hedgcoth Warehouse is managed by R. A. Hedgcoth, Leroy Rollins, and Horace Hicks with Leroy Walker as sales manager.

Liberty Warehouse is operated by R. E. Wilkins, Frank White and H. D. Goode.

Smith & Dixie Warehouses are under the management of F. K. Biggs, Sr., F. K. Biggs, Jr., Alex Kinlaw, with Milton Huggins as sales leader.

Star Warehouse has the same management with Hogan Tester and Tom Stephenson.

Redrying facilities are in top-notch condition at the three outstanding Lumberton plants and are managed by the following:

Interstate Tobacco Company, Inc. W. E. Elmore, vice president and manager.

Peterson Company, Inc. Ralph Garrett, Jr., vice president and manager of the Lumberton branch.

Whitehead and Anderson, Inc. T. A. Roundtree, president and treasurer. Frank H. Saunders, vice president and secretary.

The Lumberton Market is operating again during the 1958 season with three complete sets of buyers with representatives from all major buying companies, both foreign and domestic. Local bankers and business men together with the Chamber of

Commerce as well as all warehousemen are cooperating with the Tobacco Board of Trade to make 1958 the most successful year in the history of the Lumberton Tobacco Market.

Mr. Clements recommends to the farmers of this area to grade their tobacco close because all indications are that the buying companies will pay higher prices for first quality tobacco than in recent years.

Tobacco inspectors are recommended when one-fourth to one-third of the followers are open and pink. Study the cost and potential use of any farm machinery before purchase.

## Pearl Bailey's Hubby Rushed To Hospital; Undergoes Surgery

BIRMINGHAM—(ANP)—Three white men are being held in jail following the dynamiting of two houses located in a neighborhood which is gradually changing from all-white to Negro.

Although no charges have been filed, Police Commissioner Eugene Connor said warrants against the trio would be issued charging them with the bombing.

The blasts damaged two houses. One was occupied by a Negro family, the other was occupied by a white family. Damage was limited to shattered windows, cracked plaster and splintered boards.

**CAUGHT BEATEN**  
Two of the three men were arrested at a hospital where they were being treated for cuts and bruises after they had been attacked by Negroes

a few minutes after the explosions. The third man was picked up after the police talked with the other two.

Earnest Conimus, a Negro, told police he was looking out a window of his home when he saw three white men light fuses to two separate bombs, toss them at the houses, and flee in a car. The white men were caught and beaten about a block from the explosions.

The bombing occurred in the Fountain Heights section of Birmingham. A cross was burned in the area several months ago.

Idle farm machinery is the most costly.

One way to combat insects is to plant insect resistant varieties.
