

SHAWETTES—These are some of the high steppers who will be seen in Shaw University's homecoming parade, which is set for Saturday, November 22, at 3:00 p.m. The Shawettes, under the direction of Mrs. Deborah Spencer, physical education instructor, will also perform their precision drills during halftime activities at Chavis Park. Left to right are Jean Horne, freshman of Rocky Mount; Carolyn High, sophomore of Zebulon; Mary Lambson, freshman of Hixson; Carrie Lewery, sophomore of Gastonia; Philipa McNeill, sophomore of Durham; Joan Kimbrough, sophomore of Statesville; Rokean Wallace, freshman of Warsaw; Marjorie Greene, sophomore of Oriental; Juanita Daney, sophomore of Pinetops; and Kathleen Herndon (lead Shawette), sophomore of Apex.

## Florida Sheriff Willis McCall Called Heated Racist By National Magazine

NEW YORK CITY (AP)—The truth about Sheriff Willis McCall, known throughout the South as an outspoken racist with a fierce determination to keep integrationists out of Florida, is revealed in the new issue of Coronet Magazine. Defending himself against the charges of "racist," which he contends is Communist inspired and NAACP condoned, Sheriff McCall concludes that the Negroes are making progress. "They've come a far way in just a few hundred years from darkest Africa," he says. However, he is quick to point out, "I don't think you'll ever make the Negro the equal of the white man. That's why desegregation

## Tormenting Rectal Itch Stopped In Minutes

Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles

New York, N. Y. (Special)—One of the most common afflictions is a condition known as "itching piles." It is most embarrassing for the victim during the day, and especially aggravating at night. No matter what you've used without results—here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids—without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection. In one hemorrhoid case after another "very striking improve-

ment" was reported and verified by doctors' observations. This improvement was maintained in cases where doctors' observations were continued over a period of months. Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration. The secret is this new healing substance (Bio-Dyne)—a discovery of a world-famous research institution. This substance is now obtainable in ointment or suppository form known as Preparation H. Ask for Preparation H suppositories (convenient to carry if away from home) or Preparation H ointment with special applicator. Absolute satisfaction guaranteed or money refunded. \*Reg. U.S. Pat. Off.

A FIRST — Mrs. Charles E. White, 42-year-old Houston, Texas housewife, won a position on the Houston School Board last week over incumbent Dr. John Glen, to become the first member of her race ever to win public office in that city. Mrs. White had strong support by liberal elements which backed issues of integration and federal aid to schools. Early this week a five-foot cross was burned in her front yard, but was extinguished by her husband, Dr. White, an optometrist. (UPI TELEPHOTO).

## P & T Fashion Crown To Student-Model

NEW YORK — Her own creation of a striking evening gown and convertible cape brings the coveted 1958 Park & Tilford trophy to high-school senior Vivian Jackson as "Miss Best-Dressed" at the 13th annual Negro Press Photographers' Ball. Miss Jackson, 17, was picked from among 50 contestants by a jury of fashion experts and civic leaders at the Renaissance Ballroom here on Halloween Night, October 31. Shown presenting P & T trophy and extra prize of wrist watch is Sidney Sladon, account executive for the sponsoring distilling house. The company has sponsored the award for the past eight years. Miss Townsend, who later was crowned "Miss Negro Press Photographers' Ball of 1958," won the best-dressed award for her formal gown in pearly blue fabric and combination cape-overskirt made of the same material with a lining of shimmering white metallic fabric. A senior at Jamaica High School in Queens County, New York City, she designed the winning costume after two years of fashion-design study. A part-time professional model, Miss Jackson resides with her family at 114-66 176th Place, St. Albans, Queens County.

## Pilgrims Would Have Been Shocked At Thanksgiving Becoming Holiday

The Pilgrims would have been shocked to their shoe buckles on December 13, 1958, if they had known that their day of thanks was to become a yearly national holiday celebrated by millions of people in the United States and Canada. For the Pilgrims were dead-set against "annual" holidays, and refused to celebrate even Christmas and Easter.

According to research experts with The World Book Encyclopedia, the Pilgrims referred to the religious holidays of the Church of England as "Roman corruptions." They believed in celebrating only when Providence granted them a particular blessing. As it proved their disdain for yearly calendar-fixed celebrations, the Pilgrims did not have a Thanksgiving celebration the next year. However, other New England colonists picked up the idea and held "thanks days" usually around the end of November.

The Pilgrim-inspired holiday is today a joyous family day celebrated with big dinners and happy reunions, but the history of the holiday in the United States has been fraught with argument. It is not a "Race Hater." He insists that the NAACP is in fact, forcing him to take drastic actions. The December Coronet profile on "The Law of Lake County" is a profile of a man who rules his ballfield with an iron hand—about a man who is an outspoken racial segregationist.

## Tar Heel Farmers Will Make Highly Important Decisions

North Carolina farmers will make five important decisions on November 25 and December 15. They will vote on the polls and vote in corn, cotton, tobacco, and peanut referendums that will have a great deal to do with the prospects of these crops in the coming years. On November 25 farmers will choose between two corn programs, and on December 15, tobacco and cotton quota programs will be decided. At 50 on December 15, tobacco and peanut growers will decide whether to continue to assess themselves for the promotion of their crops. Every agricultural leader in the state is urging every eligible farmer to vote. And a great deal of effort on the part of many people will be expended between now and the voting dates to make sure

opposition by those who believed the Federal Government was meddling in a matter that should be the concern of the individual states. Thomas Jefferson called such Government-proclaimed holidays a "monarchical practice" and ignored Thanksgiving during his 8 years in office.

Mrs. Sarah Hale, editor of Godey's Lady's Book, worked for 30 years to promote the idea of a national Thanksgiving day. Mrs. Hale had a double-barreled attack—she printed editorials promoting the idea and also included tempting recipes for Thanksgiving delicacies.

In 1983 Lincoln proclaimed that the last Thursday in November would be Thanksgiving Day. Each year afterward, the President of the United States formally proclaimed that Thanksgiving should be celebrated on the last Thursday of November.

However, some descendants of the original New England Puritans refused to observe the holiday, claiming that Thanksgiving should be inspired by the Bible, not by politicians.

## Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery. In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place. And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months! In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing. All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body. This new healing substance is offered in suppository or ointment form called Preparation H. Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded. \*Reg. U.S. Pat. Off.
