NY Department Stores Have Good Record For Hiring Race

NEW YORK CITY (AP)—In a study made of department store hiring policies in New York City, Manhattan, Garden City, and White Plains, the New York State Commission Against Discrimination (SCAD) indicated that Negroes currently represented a significant percentage of the employees.

Commissioner Charles Abrams, chairman of SCAD, noted to reporters that Negro sales personnel in the large department stores, particularly in Manhattan, were "commonplace" whereas they were exceptions a decade ago.

Stores which had, at one time or another, complaints filed against them for alleged discrimination were Arnold Constable, S. Klein, Saks 34th Street, Stern Bros., Abraham and Straus, Alexander's, Bond, Saks Fifth Avenue, Gimble's, Macy's and Bloomingdale.

In closed complaints involving 22 different major department stores, according to SCAD, 17 of the respondents were found to

have during the period of 1945 to 1958, some discriminatory practices or policy which was adjusted after conference and consultation. The remaining five stores were found to have no discriminatory policies in hiring.

The SCAD study gave minute details of the promotion of qualified Negro men and women into sales positions and also in executive positions supervising white personnel. With rare exceptions, it was with the steady prodding

sales persons in the higher priced departments of the establishment, but experience had definitely demonstrated these fears to be unfounded. One of the nation's largest stores, employing over 10,000 persons said that it employed Negroes in every department of the store, including buyers and other executives, and the total employed was estimated at nearly 1,200.

Judge & Mayor Hit Southern Bombings, Call For Top Meet

NEW YORK CITY (AP)—Justice Polier and Mayor Wagner have taken firm stands against the violence against Negroes and Jews in the South.

Justice Polier called for the enactment of a law which would

make interstate transportation of explosives with intent to use them against commercial buildings, business places, houses of religious worship, or dwellings a federal offense.

She also told members of the Congress at the Roosevelt Hotel that there should be action by the Federal Justice to invoke present statutes making it a federal offense to conspire to deprive persons of federally secured rights.

Favored also was an investigation by the Justice Department and the Federal Civil Rights Commission of the denial of voting rights in the South.

Important was the fact that Justice Polier called for the acceptance of "full responsibility" by the Executive and Legislative Branches of the Federal government or implementing the mandate of equality of education laid down by the Supreme Court.

Mayor Wagner declared, "Violence against Negro and Jewish citizens threatened all American citizens."

"The tragic truth is that the acts of violence have been too consistent and far too numerous to take them merely as spasmodic and isolated episodes."

Dr. Miller In Address At College

Dr. Howard Miller of N. C. State College spoke in St. Augustine College Chapel last Tuesday at 9 a. m. as the first speaker for American Education week speaking on the subject "Education and Survival."

Dr. Miller stated that "Survival" means in the first instance the survival of the United States in relation to Russia."

He also stated that a panic button was pushed in 1957, when Russia launched the first satellite. It was then that we realized that to compete with Russia, we must develop a superior science and technology, and the only way to do this is through education. We must educate more engineers and scientists. Education become an instrument of National Policy and Russia is serious about this.

In 1957, Russia had 34 thousand
