

Shaw Univ. Designated As Teacher Test Center For Feb.

Shaw University has been designated as a testing center for the 1959 nationwide administration of the National Teacher Examinations next February. Dr. W. R. Strassner, president announced today. College seniors preparing to teach and teachers applying for positions in school systems which encourage or require applicants to submit their scores on the National Teacher Examinations along with their other credentials are eligible to take the tests. The examinations are prepared and administered annually by Educational Testing Service, Princeton, New Jersey. The designation of Shaw University as a testing center for these examinations will give prospective teachers in this area an opportunity to compare their performance on the examinations with approximately 10,000 candidates throughout the country who will be participating in the nationwide administration on February 7, 1959. Dr. Nelson H. Harris said. At the one-day testing session a candidate may take the Common Examinations, which include tests in Professional Information, General Culture, English Expression, and Non-Verbal Reasoning. In addition, each candidate may take one or two of the eleven Optional Examinations which are de-

signed to demonstrate mastery of subject matter in the fields in which he may be assigned to teach. Applications for the examinations and a Bulletin of Information describing registration procedures and containing sample test questions may be obtained from Dr. Nelson H. Harris, West Campus, Shaw University or directly from the National Teachers Examinations, Educational Testing Service, 30 Nassau Street, Princeton, New Jersey. Prospective teachers planning to take the test should secure an Application Blank and a Bulletin of Information, Nelson H. Harris advised.

less than 24 hours after police received an anonymous telephone tip that a bomb had been planted in the school. Officers found a harmless dummy bomb in a locker at the school. Judge Winfred Smith warned the youths that the incident was serious and threatened them with much sterner punishment if there was a recurrence of the "bomb scare." "American people, if they were asked to list 'represensible' actions in the nation's history, would place at the very top much of their own conduct, such as sending elite troops to occupy an American city and bayonet its citizens, and your denouncing radicals in political speeches but inviting them into the White House to advise you, as you did on June 23 when you conferred with an NAACP delegation the members of which have scores of citations of Communist front affiliations."

Find Body Of Girl, 10, In Pa. Church Gutted By Fire

PHILADELPHIA (ANP) — Twenty-four hours after the Church of the Lord Jesus Christ of the Apostolic Faith, Inc., had been gutted by fire, the body of a 10-year-old girl was found in the smoldering ruins. The girl, Betty Ann McDowell, was discovered in a restroom where she apparently succumbed from smoke inhalation. The girl was among 1500 worshippers attending service when fire broke out Sunday morning. Just before the blaze she left the main auditorium and was not seen until the next day when firemen recovered her body. The flaming church threatened some 30 homes nearby and so completely was the wooden interior gutted that supporting rafters gave way and the stable toppled to the ground. The walls also gave way. The fire was believed to have started in the Sunday School

Russia Is Topic Used By Koop

Aside from her military progress, Russia is trying to get ahead economically and in government of free countries in Asia and Africa. Mr. T. F. Koop, director of CE News and Public Affairs in Washington, D. C. told Glaw University students and faculty Friday. Mr. Koop spoke on "International Affairs" and stated that Russia is constantly trying to keep the Western World off balance. He mentioned Russia's turn of events toward the west as one of the most important. Discussing the East Berlin situation, he pointed out that if we give in to Russia's proposition, we lose faith with the rest of the world and if we do not, we face war, which is not a very happy future. However, our government feels that Russia does not want war, but she will do everything short of war in an effort to keep America off balance. He felt that the eventual hope of getting together with Russia will be in the educational process. He said the Russian people with education can form their own opinions. In conclusion, Mr. Koop said that as a Godless Country, Russia can never match America, with education, patriotism, forward looks and spiritual values which include faith, we can develop and maintain a free world.

Russia Is Topic Used By Koop

Aside from her military progress, Russia is trying to get ahead economically and in government of free countries in Asia and Africa. Mr. T. F. Koop, director of CE News and Public Affairs in Washington, D. C. told Glaw University students and faculty Friday. Mr. Koop spoke on "International Affairs" and stated that Russia is constantly trying to keep the Western World off balance. He mentioned Russia's turn of events toward the west as one of the most important. Discussing the East Berlin situation, he pointed out that if we give in to Russia's proposition, we lose faith with the rest of the world and if we do not, we face war, which is not a very happy future. However, our government feels that Russia does not want war, but she will do everything short of war in an effort to keep America off balance. He felt that the eventual hope of getting together with Russia will be in the educational process. He said the Russian people with education can form their own opinions. In conclusion, Mr. Koop said that as a Godless Country, Russia can never match America, with education, patriotism, forward looks and spiritual values which include faith, we can develop and maintain a free world.
