

LITTLE DIFFERENCE

In this world there are more than a billion and a half people, most of them so poor that they are like you. They have no cars and arms and legs. They need the same kind of food and take the same kind of medicine as you.

THE MAYVIEW GUN AND ROD CLUB

There is a tradition among fishermen that the Mayview streams contain the finest trout and that the fishing there is the best. It is said that the streams have been there since the world was first.

Mother's Cook Book

When Eve brought woe to all mankind, Old Adam called her woman. When she weened with love so kind He then pronounced her woman.

SEA MOSS AND ITS USES

SEA MOSS OR CARRAGEEN is not well enough known to any but our New England friends, who have used and enjoyed it for years. The whitish sea weed which has the pleasant tang of salt water may be gathered freely on the coast or may be purchased at stores in various places.

Peach Pudding

Add one-third of a cupful of sea moss to one quart of milk and cook for half an hour in a double boiler. If fresh peaches are to be used add two or three crushed peach kernels to the milk or three peach leaves.

With the greatly increased growth of forage plants the agent implanted the desire for better live stock. When the agent began his work the pure-bred animals of the county could have been numbered on the fingers of the hand. Now there are more than 20 pure-bred beef bulley, 30 dairy bulls, 14 rams and the estimated breeds of hogs have made the old time razorbacks a curiosity.
