

Heavy Enrollment for Second Term

About Four Hundred Normal Students to Remain—Other Items From the School

The Appalachian state Normal has finished up the fourth week of the first Summer School and one purpose of this article is to give some estimate of the previous training of the student-teacher body now in attendance. Of the one thousand present more than 750 are high school graduates and nearly 300 of these graduated in 1927, and these latter with more than 90 graduates of former years are taking their first summer school work. More than 150 have attended college one or more years previous to this, and a very large number of the entire body is looking toward graduation from at least a two-year normal as their next goal.

The subjects now are that the attendance for the second summer term is going to be unusually large. About 100 of the entire enrollment will remain for the next year, and the majority of the remainder of the term are preparing to take all who desire to come. The term will open July 12.

Dr. James P. Hillman, director of certification, was a special visitor at the Normal. He is a member of the National Association of State Text Book Commissioners, which was in session last week, visited the Normal last Thursday, E. K. Nichols, of Winston-Salem, was a visitor at the Normal on Friday and made a short talk. On the same day Dr. Edgar Stokes, of Greensboro, with his wife and other friends, was present and rendered a solo.

Prof. L. H. Green has just returned from Asheville, where he and Mrs. Green rendered a program of folk lore and ballads at the meeting of the American Society of Home Economics. Mr. Green says there were 800 present from every part of America. The program was given at K. W. Smith's home.

A splendid program was given at the Normal and local Friday night under the auspices of the Watauga Society of the Methodist church. Those having part in the program were Dr. Edgar Stokes, soloist, Mrs. A. M. Stanley, soloist, and Miss Sam Kyle Southwick, all of Greensboro.

BIBLE LEAGUE WILL HEAR GOV. RICHARDS

Charlotte, Jan. 26.—Governor J. G. Richards, of South Carolina, exponent of fundamentalism and nationally known "blue law" executive, will make an address at the meeting of the North Carolina Bible League at Faith Avenue Presbyterian church here July 20.

Governor Richards said the observance of blue laws is deeply ingrained in the minds of the Bible league, and was in sympathy with their activities.

One of the purposes of the North Carolina Bible League is to give the North Carolina Bible League that they may have a better understanding of the Bible in the various schools and colleges of the state.

Governor Richards' address is expected to be one of the leading features of the public session, which will be held on the morning of that day. He is expected to be present at the dinner meeting of the league in the afternoon.

LESS PYROXYL FOR THE TAR HEEL FARMER

Raleigh, June 24.—Shell-stocked stumps are likely to be fewer this year and farmers are due to grow over the improvement that 90 per cent less pyroxy will be allotted to North Carolina this coming year than last for blasting stumps out of fields. This pyroxy is made from excess war supplies, but those are fast being used up, with the result that the amount of pyroxy available is much less.

Since the distribution of this cheap explosive was started, North Carolina farmers have invested more than a quarter of a million dollars in it. It has been used extensively in clearing land of stumps and trees, and in ditching. But with the amount allotted for this year, the distribution closes, and no more of this cheap explosive will be available.

The efforts of the county agents and farm extension workers, 1,500 farmers in 52 counties have invested \$226,000 in the material. With this money, the farmers have bought 2,486,550 pounds of pyroxy. It has been used to remove stumps from 52,500 acres of farm lands and to clear 5,600 acres of new land.

A Clean Record
"A woman will go through a lot for a man when she marries him."
"Yes, the one I married went through my trousers, my bank account and a divorce suit."

Clothes—6 Ounces This Summer

Vera Stam, Wall Street stenographer, in her six ounces Summer clothes— including frock, shoes, stockings and "undies."—Economic and comfortable.—says Miss Stam.

Miss Flo's Corner

A Gossip Box for Ladies BY MISS FLO

TO A GROOM-LIKE WHO WONDERS

Dear Miss Flo: I am engaged to be married to a very nice fellow with whom I am sure you will be glad to know I am engaged to be married. I have always been a very nice fellow and I have never known her to do me any wrong. However, I met her family recently for the first time and some of them have been rather doubtful that we can be happy together. I have heard of things on brought up by a home in which modesty and refinement were insisted upon. Such is reason, and I have never heard of anything worse or vulgar in my home. However, in my father's home they seem to know nothing or care nothing about those things that are generally considered the deceptions of life, and I was more than shocked at the things they said and did. I have so far decided, but wonder if you will be kind to give me some advice. I am sure you will be kind to give me some advice. I am sure you will be kind to give me some advice.

Oklahoma's Bad Man

"Matt" Kimes, 22 year old bank robber who stirred 'em up by his boldness. He stole an automobile in which a baby was sleeping—but returned it when discovered. Then he took the Chief of Police of Jennings, Okla., at point of a gun on a wild night ride, tied him to a tree and escaped.

ed herself over a period of time to be wholesome and clean-minded and decent I think it most unfair to judge her by her family.

Judge her rather by the things she does—the things she says—the things she thinks. However I do advise you to study the girl a long time before you marry into a family whose ideals are so different from your own. Know for a certainty that the girl whom you love has not merely assumed a pose for you that she really does not possess. For if she has, sooner or later, she will revert to type. There is no saying so true as the one which tells us we cannot make a silk purse out of a sow's ear, and there would be small congeniality between you and the girl if you were always going to be shocked with her or if she jars your ideas of decency.

Remember that your home must not be merely a piece of shelter and food. It must be a thing of beauty, with no loss of the spirit and soul. A woman must put into it the beauty of her heart, just as much as the poet must put into it his soul and if she has no beauty in her heart, if she is coarse and vulgar and common—you cannot hope for happiness. And remember that when the china vase and the earthenware pot under take to float down the stream to-

gether, it is always the fine case that gets smashed.

Obliging
Manager: "Why did you strike that young lady?"
Waiter: "Well, she asked me to watch her a wrap. And all I done was to teach her a good one over the right eye."

Group Conviction
District Attorney: "What possible excuse do you fellows have for acquitting that murderer?"
Juror: "Possibly."
District Attorney: "What! The whole 12 of you?"

Renew Your Health by Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs—once or twice a week for several weeks—and see how Nature rewards you with health. Calotabs are the greatest of all system purifiers. Get a family package, containing full directions. Only 35 cts. At any drug store. (Adv.)

Fresh: "Do you notice any improvement, Professor, since last week?"
Prof: "Yes, now that you call a cat on it, I think your hair is parted."

Take Your Pick
New Steve: "I've added up these columns ten times, sir."
Boss: "Good for you."
"And here are the ten answers."

PLUMBING and HEATING

More satisfied customers prove the quality of materials and fixtures we use in our installations and demonstrate the ability of our mechanics who install them. Ask the man who bought from us.
