**Artistic--Beautiful**

While you are building—it might as well be the beautiful and the artistic, especially if it costs no more. This is equally true, even though it be only repairs and improvements to the home place.

America has passed the era of building "just abodes." America has caught a bit of the old world spirit of making its homes an artistic place in which to live—or, a place pleasing to the eye as well as comfortable.

No matter what you want to build or repair, nor no matter what materials you may need, we can supply them at a price as low as can be found anywhere.

Give us a trial.

We wish to announce to the many friends and patrons of our Boone Store that Mr. T. M. Greer, who has so successfully and satisfactorily managed our store since its opening, has resigned to take a position with the Farmers Hardware Co. We have appointed to succeed him Mr. J. H. Meroney, formerly of Mocksville and Lenoir, and who has been connected with our organization for some time. Before coming to Boone, Mr. Meroney had met many Boone and Watauga people and it was on his request that we appointed him to the Boone management. We consider June (Mr. Meroney) as good as our best and we are proud to place him with you Boone and Watauga people. If you don't already know June, he asks us to announce that it is not his fault, and that he wants to meet you.

We also wish to announce that we are planning to give you throughout 1928 even better prices than the extremely cheaper prices we have heretofore given you, and you know the great money saving we have offered you in the past. We thank you for your patronage throughout 1927 and wish you a very happy and prosperous New Year.

See the **New Chevrolet** now on display!

Today, Chevrolet presents the crowning triumph of sixteen years' continuous progress—a great new automobile so impressive in appearance, performance and staunchness that it marks the opening of a new era of luxurious transportation at low cost.

Built on a 107-inch wheelbase—4 inches longer than before—the Bigger and Better Chevrolet is impressively large, low and racy. Its new Fisher Bodies are finished in new Duco colors and offer rich new upholstery and handsome appointments. Its improved valve-in-head engine has numerous impressive features such as alloy "invarstrut" pistons, hydro-laminated camshaft gears, mushroom type valve tappets, AC oil filter and AC air cleaner. The chassis also has been redesigned. As a result, the new Chevrolet provides delightful smoothness throughout the entire speed range—a wide margin of power for hills—

click-of-the-heel acceleration—the ability to maintain 50, 55 and 60 miles an hour without the slightest sense of forcing or fatigue—the safety of four-wheel brakes—the steering ease that can only result from a ball bearing worm and gear steering mechanism—and comfort over all roads at all speeds due to semi-elliptic shock absorber springs—84% of the wheelbase.

Come in—see the car—and learn how Chevrolet has again electrified America by creating a bigger and better motor car and offering it at prices so low as to be actually amazing!
