CHEVROLET COMPANY SETS AN ALL-TIME CAR RECORD

The Chevrolet Motor Company set a new all-time record during May for total volume of parts and accessories sales. The previous record dated back to the boom year of 1929, when August sales reached a peak that stood as a record for nearly six years.

Announcement of the new record was made at White Sulphur Springs by M. D. Douglas, manager of the Chevrolet Parts and Accessories division, before a gathering of the leading field men of the division, guests of the company during a three days' stay awarded them in recognition of the high May total.

According to Mr. Douglas, the May peak of sales can be attributed largely to a general resumption of touring for pleasure, a natural sequence to the increase in spending power throughout the country.

"The curve of new car sales shows heavy gains over last year," he declared, "and new cars themselves create a demand for accessories—everything from insect screens to radios. However, our May record was far above what could be attributed to the sale of accessories for new cars, and it can be definitely concluded that much of the buying was for old cars."

"That means that motorists are taking to the road in larger numbers than during the recent touring seasons, and are equipping their cars with accessories that will contribute to their convenience, comfort and safety. They are making their old cars look new with seat covers, modernizing them with radios, equipping them with spot lights, visors, dual windshield wipers, and other articles that add to the convenience and pleasure of both the driver and the passengers."

Alleghany County sheep growers co-operated in the regional wool pool in which over 80,000 pounds of wool was sold for 29 cents a pound.

DEPORT ALIENS?

Texas Congressman Dashes Out at "Spicks"

WASHINGTON.—Congressman Martin Dies (D) of Texas, pictured above, would bar all immigration for fifty years and compel admitted aliens to seek citizenship within 12 months, thus purging the country of 6,000,000 deportables. He claims there are 3,500,000 illegally entered aliens now here and wresting jobs from our own unemployed.

LARGE CROWDS HEAR REV. W. L. ADKINS AT FOSCOE

A packed house heard Evangelist W. L. Adkins last Sunday night in the Christian Church at Foscoe. His subject was "The Rich Man and Lazarus."

Rev. Adkins said in part: "This Scripture does not teach that a man goes directly to his reward at death. Man is not immortal by nature. He does not have a never-dying soul. Revelations 16:3 and Ezekiel 18:4 declare that souls can die. Man does not go to his reward at death, but at the resurrection when Jesus comes back to earth. This Scripture I have read to you is a parable. Jesus only spoke in parables. It is an allegory illustrating the Jewish nation at that time. Lazarus the Gentile nation begging for crumbs of spiritual truth. The Jew is literally in torment because of his persecutions. The Gentile is in favor with Abraham being an heir of his (Galatians 3:29). Every man's reward will be given when Jesus comes."

Mr. Adkins announces that these lectures will continue through the month of July. Lectures are held every night except Saturday night.

PAYNE RETURNS FROM INSURANCE CONVENTION

Mr. and Mrs. F. M. Payne have just returned from Roaring Gap, N. C., where they were honored guests of the Security Life and Trust Company at the annual agency convention of that institution. The meeting was held at Graystone Inn, and Mr. Payne, who is the company's representative in this section, states that it was a most enjoyable occasion. Outstanding representatives of the company from its entire territory attended the gathering which was in session from Wednesday through Saturday.

Mr. Payne is a leading member of the Security Club, honor organization of the Security Life and Trust Company's agency force.

Officials of the company announce that the past year has been one of the most successful in the history of the organization, and were particularly gratified over the fact that the company enjoyed a larger increase in insurance in force during the year 1934 than any other company operating in its home State of North Carolina as shown by reports of the State Insurance Department.

Robert M. Hanes, president of the Wachovia Bank and Trust Company, Winston-Salem, delivered the principal address at the closing banquet and after congratulating Mr. Payne and the other members of the organization on the company's outstanding record, spoke in optimistic vein of the future possibilities for service open to the capable, well qualified life underwriter.

Mr. Hanes stressed the fact that public appreciation of the fundamental service rendered by life insurance has increased steadily during the past few years, and called attention to the fact that for the average man life insurance is the only practical method so far devised for providing the necessities of life to his family in case of his premature death, or for acquiring the assurance of an old age free of financial want in case he lives beyond the point where he is capable of continued earnings.
