POULTRY QUESTION

When should breeding hens be selected for next year's flock?

Answer: Birds that molt in late fall or early winter are always the best producers and breeding hens should be selected from them. The flock should be watched carefully through August and early September and those birds that go into a molt should be sold. The late moulters will come back into production in a short period and will pass on this producing quality to their offsprings.

IN MEMORIAM

In sad but loving remembrance of my beloved son, Glenn R. Wyke, who departed this life August 11, 1932. I am sad within my memory, Lonely is my heart today For the one I loved so dearly Has forever been called away. I think of him in silence, No eyes may see me weep, But many silent tears are shed When others are asleep.

TO CABINET?

Walker May Succeed Postmaster General Farley.

WASHINGTON. — Despite that Frank C. Walker (above) wants to retire to private life when he finishes his work relief job, President Roosevelt is reported urging him to accept a cabinet post, that of Postmaster General Farley, who is very shortly to resign and devote himself to the duties as chairman of the Democratic National Committee.

Chevrolet Dealers Return from Meeting

Mr. W. R. Winkler of the W. R. Chevrolet Company have returned from Charlotte where he and members of his sellinb staff have been attending a special mass meeting in connection with the "Ride America" demonstration campaign which the Chevrolet Motor Company is staging during the month of August.

Plans for demonstrating the performance and exceptional riding qualities of the 1935 Chevrolet to millions of potential buyers were outlined at the meeting by Mr. E. C. Atkinson, sales promotion manager. By maintenance of peak production in the Chevrolet plants, deliveries can now be made more promptly than at any time heretofore this year, it was announced at the meeting.

"The assurance of prompt deliveries," said Mr. Winkler, "was certainly good news to us. As any model can now be obtained without delay, it is a logical time to put on a real demonstration drive. A ride in a Chevrolet is a revelation in smoothness, comfort, ease of control, and an experience which no one considering a car can afford to miss. Add to this the economy and durability which our owners find so gratifying this year, and you have the explanation of the shortage which is only now beginning to abate."

Accompanying Mr. Winkler were L. L. Bingham and C. H. Blackburn, members of his sales organization, who will aid him in the local staging of the "Ride America" demonstration campaign.

Mr. Winkler also says that business conditions in and around Boone are the best in years. Deliveries for the month of July were the greatest since the opening of this dealership.

SENATOR GRIFFIN SUCCEEDS MARTIN

Former Secretary of State School Commission Accepts Position With Wachovia Bank.

RALEIGH, N. C.—Senator Lloyd E. Griffin, Edenton, chairman of the Senate Education Committee of the recent General Assembly, was elected last week as executive secretary of the State School Commission to succeed LeRoy Martin, who resigned, effective September 1st, to accept a position in the trust department of the Wachovia Bank and Trust Company, Winston-Salem. Governor Ehringhaus, who has known of Mr. Martin's expected resignation for some time, selected Senator Griffin, persuaded him to take the place, and had the salary raised to \$4,750 a year so it would be sufficiently attractive for him to accept it. The commission elected the man selected by Governor Ehringhaus.

Mr. Martin has served as secretary of the commission since it was formed eight years ago as the State Board of Equalization, when it handled only \$3,250,000 a year as an equalizing fund. It now operates the entire school system at a cost the coming year of \$20,031,000. Meanwhile, he has served as principal clerk of the State Senate each two years. It was with deep and sincere expressions of regret that the commission accepted his resignation. He is a native of Yadkin County, a graduate of Wake Forest College, and secured license to practice law in 1929.

The resignation and filling the place came so suddenly it is hard to get expressions of views on it. However, it is believed that school people would have favored turning the secretaryship over to State Superintendent Clyde A. Erwin, or if not that, then naming Claude F. Gaddy, who has been in charge of the bus transportation for several years and served as acting secretary during the last legislative session or two. Dr. Ralph MacDonald, Forsyth representative, sent a message protesting the selection of Senator Griffin.

Governor Ehringhaus, accompanied by Mrs. Ehringhaus, Mrs. Rush Jolly, their daughter, and son, Blucher Jr., left Friday on a motor trip to Canada, going north by way of the Shenandoah Valley, New York and Buffalo, and will return by way of New York. They expect to be gone the rest of August or longer. Nissen Aldridge, chauffeur, is driving the car. Meanwhile, Charles G. Fowell, the Governor's private secretary, will hold down the Governor's office and will keep in pretty close touch with the Governor by telephone.

How much legume hay should be provided for each mature cow in my herd?

Answer: Under average conditions in this State, two tons of legume hay will be sufficient for feeding during the winter months. Where there is a shortage of succulent roughage, this amount should be increased. With plenty of common roughage such as grass hay and straw from threshed grain and a good supply of silage the figure given will be ample.

YOU DON'T HAVE TO "BREAK IN" THE FORD V-8

You can drive it 50 miles an hour the day you buy it

THE FORD V-8 is ready for normal driving when you buy it. There is no tedious period of breaking-in for 500 or 1000 miles. You can drive it up to 50 miles an hour the first day. And after the first hundred miles you can drive it as fast as you desire.

That means greater motoring enjoyment for every motorist. It is especially important to motorists who are thinking about a new car for a vacation trip — to physicians, salesmen and all those who use a car for business. Instead of dragging along at slow speeds for days, you can make good time from the start.

The reason for this is as important as the result. The Ford V-8 needs no breaking-in because of unusual accuracy in the manufacture of moving parts and the smoothness of bearing surfaces. Clearances are correct when you buy the car. It is not necessary to depend on a long wearing-in period to eliminate tightness and insure smooth running. Longer life, greater economy and better performance are bound to result from such precision methods. The Ford V-8 gives you fine-car construction, along with fine-car performance, comfort, safety and beauty.
