# Listen, GRADUATES.... here's a job for YOU!

You're taking your place in a pretty worn-out world . . . . scarred by war and greed and misery. But, we are looking forward to your enthusiasm . . . your ability . . . your youth to take hold and bring us onto the shores of world peace and co-operation.

We congratulate each of you on your educational and cultural progress. We are happy that you, the leaders of tomorrow, are to be adequately prepared to take up the tasks relinquished by a former generation.
