**BLACK WALNUT SHELLING MACHINERY**

There is a good walnut crop in this section. We manufacture power-driven nut-shelling machinery in capacities ranging from 75 pounds per hour to 1000 pounds per hour. Our equipment does the complete job, cleans, cracks and separates kernel from shell. Very little labor required. Better than 90% of all black walnuts shelled in this country are processed on machines of our manufacture. If you are definitely interested, write us for additional information.

Tenn. spent the week-end with his parents, Mr. and Mrs. W. K. Wilson.

Mrs. Shirley Hurt and daughters, Shirley and Rebecca of Greensboro, visited Mrs. L. Greer and Mrs. Dora Penn recently.

**Aged Doctor Lost in Dense Thicket, Alive**

Linville, Aug. 21—An 84-year-old Pennsylvania physician, lost overnight in a dense laurel thicket following a hike, was found alive shortly after noon today by several young campers.

Dr. Edward Pershing of New Hope, Pa., was brought from the thicket, a mile southwest of Flat-rock, and returned to Henley Inn, where he had been vacationing.

Names of the campers who heard the doctor's cries for help were not obtainable here at noon.

The aged man appeared to be none the worse for his experience except for the fact that he was thirsty. Mrs. H. M. Roomey told The News-Topic. Mrs. Roomey operates Henley Inn.

Dr. Pershing disappeared while on a hike with his niece, Mrs. Gordon Hartshorn, also of New Hope, and her daughter, Betsy. He took the wrong trail and became separated from his companions.

The doctor attempted to reach the Parkway, but became entangled in the thicket. He decided to remain in the dense underbrush rather than attempt further movement at night.

Two campers heard the doctor's yells, and attempted to reach him. Unable to do so, they summoned a smaller boy who successfully penetrated the laurel thicket.

Reservists Must Register For Draft

According to information received from Capt. J. C. Davis, Commanding officer of the U. S. Army and U. S. Air Force recruiting station in Lenoir, members of all the reserve components who are within the registration age, must register in accordance with the Selective Service Act of 1948. Capt. Davis, stated the reserve components include the National Guard, Enlisted Reserve Corps, and Organized Reserve Corps.

Neither the Act nor the President's proclamation make any provisions for exemptions from registration for members of reserve components who are otherwise eligible unless such reservists are now on active duty.

Those men who are now members of the reserve components and who served in the Armed Forces during World War II, and are within registration age must also register according to Capt. Davis's statement.

Those who were members of the National Guard or Organized units of the reserve components on effective date of the Act are exempt from service so long as they remain members, and satisfactorily participate in scheduled drills and training as prescribed by the Secretary of Defense.

Rules Given For Vet Hospitalization

Three simple rules govern admission of patients to Veterans Administration hospitals, VA pointed out today.

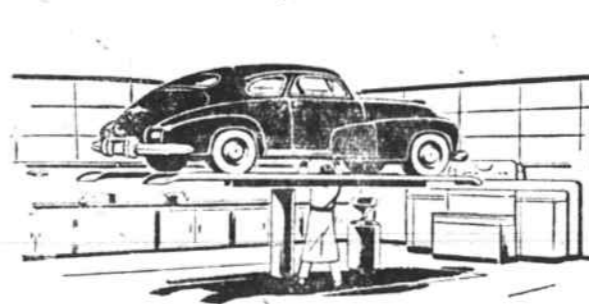

Emergency cases, regardless of the cause of injury, get top priority admission to a VA hospital. Next on the priority list are veterans with service-connected ailments, VA said. That's where the injury of disease to be treated was caused by war service or made worse by it.

The third rule concerns veterans with non-service-connected disabilities. These veterans may be hospitalized if beds are available and they affirm they cannot afford to pay for treatment elsewhere, VA explained.

Except for the 1944 crop, Irish potatoes have been in heavy supply every year since the price support program became effective. Meat supplies per capita in 1948 will be about 145 pounds.

**HYDRA-MATIC HEADQUARTERS**

WHERE THE SERVICE IS AS MODERN AS A FUTURAMIC OLDSMOBILE!

As Oldsmobile Dealers we're way out ahead with Hydra-Matic Drive. Not only in sales, but in service, too. Our mechanics have invaluable experience in the automatic transmission field. We've secured the necessary equipment and built up a backlog of Hydra-Matic parts. All of which means, if you're a Futuramic driver—a driver who never shifts gears or pushes a clutch—you probably want service that's ultra-modern, too. Why not drive in soon!
