

**YOUR DOCTOR — VETERNARIAN — GARAGE — SCHOOL — FRIENDS AND NEIGHBORS ARE AS NEAR AS YOU CAN
CALL THEM ON**

YOUR TELEPHONE

**For the First Time in History It Is Possible for Rural Sections of the County To Have Modern Telephone Service — But a
Sufficient Number of Members Must Be Secured for the Service.**

**Be A Member - Get A Member
Your Initial Payment Is Only \$10.00**

When you sign up as a member you may pay only \$10.00 if you wish, and the remaining \$24.00 of the \$34.00 membership fee may be paid when construction starts. The Skyline Telephone Company has an allocation of \$1,060,000. We must raise our part in memberships.

COUNTY-WIDE SERVICE FOR YOU

When the service is complete it will serve the entire county and according to the present plan there will be no long distance toll charges in the county. Only the regular service of \$3.25 per month. Think what this convenience can mean to you. You can call a doctor in an emergency. In case of fire or any other emergency when you need help quickly, all you have to do is go to the telephone. This will save you time and money.

The Skyline Telephone Co-op

MAY BE BROUGHT INTO SERVICE VERY SOON

We have information from authoritative sources that materials are available and as soon as the funds are raised bids on the project will be received for its early construction. But to qualify for this project we must show our interest by becoming members in the Skyline Telephone Company.
