

Rotary Boys Of Month Are Chosen In County

The Rotary Club of Boone is selecting from the student bodies of Appalachian High School and Cove Creek High School boys who meet the following standards:

- (1) Scholarship, being able to maintain a "B" average in all subjects;
- (2) Leadership, is an active leader of student functions;
- (3) Citizenship, is aware of the fundamental duties of service, courtesy, punctuality, and good behavior;
- (4) Character, is honest, dependable, loyal, friendly, a good sport, and has high ideals.

The boys who are selected by the respective student councils of their schools will be honored, with their dads, by the Boone Rotary Club the first Thursday of each month. One boy will be selected each month from each school for this honor. At the end of the school year, one boy from each school will be selected from the group which had been honored each month and awarded "Rotary Boy of the Year" honors at his graduation. Each boy will receive a token of his achievement when he is selected, and the boy from each school who is selected for final honors will receive a loving cup.

Rotary Boy of the Month selections for October brings forth the two leaders of the student bodies in their respective schools.

Student body president at Cove Creek High School is seventeen year old Johnny Fletcher. His parents, Mr. and Mrs. James Fletcher, live in Zionville, and his dad is an employee at the IRC plant in Boone. Johnny, who is a Math and Science major who plans on attending college, is vice-president of the National Honor Society, member of the annual staff and school paper, been vice-president of his class two years, has played basketball one year, and has played baseball two years for the Red Raiders.

The student body president of Appalachian High School is the seventeen year old son of Mr. and Mrs. Earl Lyons, Bill Lyons. Mr. Lyons, who lives on the Prison Camp Road, is a mason working out of Boone. Bill, who is taking a general curriculum and planning to go to college, is program chairman of the National Honor Society, sports editor for the annual and school paper, treasurer of the Men's "A" Club, president of the Audio-visual Club, has been president of his class two years, co-captain of the basketball team last year and has won two letters in basketball, and has won three letters in baseball.

These two boys represent the finest from their respective schools and it is with sincere congratulations to their parents and to the boys themselves that the Rotary Club of Boone honors these two boys this month.

Rites Are Held For Mrs. Wilson

Funeral services for Mrs. Minnie Wilson, whose death occurred September 27, at Blaine, Tenn., were conducted from Zionville, N. C. Baptist Church on the 28th, with Rev. R. C. Eggers officiating and burial in the church cemetery.

Mrs. Wilson was the widow of James Millard Wilson who preceded her in death seven months ago.

Surviving are one son, Lloyd Wilson of San Bernardino, Calif., and two daughters, Mrs. Russell Hinman, Sheridan, Wyo., and Mrs. Bill Collins, Blaine, Tenn., one sister, Mrs. Polly Greer of Zionville, five grandchildren and six great grandchildren.

McCarteys Funeral Directors of Knoxville, Tenn., was in charge of arrangements. Pallbearers were nephews of Mrs. Wilson.

Farmers May Get Two Types Of FHA Loans

By JENNINGS E. ROBINSON
FHA Supervisor

North Carolina farmers can obtain two types of operating loans from the Farmers Home Administration. Horace J. Isenhower, North Carolina State Director, said this week. The credit is available immediately and can be used to finance current farm and living expenses as well as the production of next year's crops. The two kinds of operating loans are special livestock loans and regular production and subsistence loans. The production and subsistence loans are made only to operators of family-type farms. The livestock loans are made to

operators of family-type farms and other farmers and ranchers as well. All of the loans are made only to farmers who are unable to obtain the credit from other sources.

The regular production and subsistence loans help small farmers to improve their farming operations. These loans may be made to buy farm and home equipment, feed, seed, lime and fertilizer; and to pay other farm operating and family living expenses.

There is a statutory limit of \$7,000 on each production and subsistence loan and the total outstanding debt for these loans

cannot exceed \$10,000. Repayments are based on the income to be received each year after reasonable expenses are met. In no case may the loan run for more than seven years.

When the main purpose of the production and subsistence loan is to improve the farmer's operations, a limited amount of funds may be included to refinance debts secured by liens on livestock and farm equipment.

Special livestock loans are made to producers and feeders of cattle, sheep, and goats, except commercial feed lot operators. These loans are made to meet usual expenses necessary to successful livestock operations, such as the purchase or production of feed, and replacing, hiring, or repairing farm machinery and equipment. Livestock loans are not made to expand operations or to pay existing debts, except incidental current bills.

Livestock loans are made for periods up to three years. Other creditors are not asked to subor-

inate their liens, but are expected to stand by and to agree that a reasonable part of the applicant's normal income from livestock can be used in repaying the loan.

There is no limit set by law on the amount that a farmer or rancher can borrow under the special livestock loan program. The amount that can be borrowed under this program is determined by the farmer's needs and his ability to repay. No loan is made unless it appears that an applicant has reasonable prospects for success.

For each loan made, the Government obtains the best security available including a first lien on all crops to be produced with the loan and on all livestock and farm machinery purchased with the loan.

While special livestock loans cannot be used to refinance existing debts the loans can include funds to pay for the annual depreciation on chattels serving as security for their loans. In addition, local businessmen who are creditors benefit from loan funds used to purchase loan supplies and services.

The county committees of the Farmers Home Administration pass on the eligibility of all applicants.

All applications for Farmers Home Administration loans are made at the agency's local county offices.

Cash receipts from farm marketings totaled 31.0 billion dollars in 1953, or four per cent less than in 1952.

About 92.3 per cent of the nation's over five million farms had electric service as of June 30, 1954, compared with 90.8 per cent in 1953. Meat consumption over the world per person last year was about 10 per cent greater than in 1954, compared with 90.8 per cent in 1953. Meat consumption over the world per person last year was about 10 per cent greater than in 1954, compared with 90.8 per cent in 1953. FLYING MAIL

The Post Office Department's year-old experiment flying 3-cent letter mail between certain major cities has saved almost ten billion hours of delivery time according to the Air Transport Association said that during the first year of experiment the public paid the Post Office Department \$29,500,000 for this service and the Department, in turn, paid the airlines \$1,830,000. The test is being conducted between Chicago and two East Coast cities—Washington and New York, and between those cities and Jacksonville, Tampa and Miami, Florida.

Expert tells parents that children need life's jolts.

Kepharts Back From Montreat

Dr. and Mrs. A. P. Kephart returned Sunday from Montreat where they attended the annual meeting of the southeastern section of the American Camping Association where Dr. Kephart conducted a work-shop on "Spiritual Values in Camping" and arranged and conducted the Sunday morning worship service. Miss Jeter of Camp Yonahlossee accompanied them. Mr. and Mrs. G. M. McCord of Atlanta, Miss Jeter's partners now in the ownership of Camp Yonahlossee also attended. Miss Jeter is secretary of the association and Mrs. Kephart was made chairman of the nominating committee for the coming year.

North Carolina hay crop prospects declined further during the month of August, dropping the September 1 expected total production to 1,204,000.
