

Cove Creek Planning For Annual Clean-Up

The Cove Creek Community Development Club has set April 15th through 20th as clean-up, paint-up, fix-up week for homes, schools, churches and business establishments.

Everyone is asked to participate and make their place attractive and neat. Some homes have already completed their spring clean-up work but during this week take another look and see if you may have overlooked or put off something you intended to do later.

Here are a few suggestions and hints:

- Get rid of those places around the house you may have used for tin cans, broken glass, and miscellaneous items; these places are feeding gaud breeding places for mice and rats.
- Do not throw trash in the creek.

3. Get rid of newspapers and magazines, they present a fire hazard in your home.

3. Paint is your cheapest cleaning aid.

4. Flowers and shrubbery adds personality to your home.

On Saturday, April 20 a truck will come to your home and pick up those items which will not burn, such as tin cans, broken glass, etc.

Starting May 1st a lawn of the week will be selected by a group of judges and to the weeks winner a plaque will be placed on the lawn of the home having the most attractive lawn.

Wool, Lamb Raisers Must Sign ASC Papers

Wool and lamb producers must file applications for payment under the 1956 wool incentive payment program not later than April 30. Chairman Dwight Cable, of the Watauga County Agricultural Stabilization and Conservation Committee has announced. The applications must be filed at the County ASC Office. Payments under the 1956 program will be made on marketings of wool and lambs completed between April 1, 1956 and March 31, 1957.

"Completions of marketings," the Chairman explains, means that the title of wool or lambs must have passed from the seller to the buyer. If any part of the sale—such as price, weight or yield-needed to determine the purchase price is not completed within the dates mentioned above, the sale will not be considered as eligible for submission under the 1956 program. Sales made after March 31 will be eligible under the 1957 program, which runs from April 1 of this year through March 31, 1958.

In applying for payments, producers must supply documents showing complete information concerning the sale of their wool and lambs.

Wool incentive payments are authorized by the National Wool Act of 1954 to stimulate increased production of wool. Payments are made on lambs to encourage the normal marketing of lambs with the wool on. First payments under the program were made last summer on 1955-56 marketings. Nationally, these payments total approximately \$57.5 million. For North Carolina these payments total \$46,000.

It should be borne in mind that separate applications for shorn wool and lambs and yearlings are required. Farmers are advised to check their records to see if this has been done. From our records it appears that only 55 per cent of those farmers who have filed applications for payment on wool have filed applications on lambs and yearlings.

A rise of \$12,000 in employment in February partly offsets the sharp decline of January, the Commerce Department announced. The total of \$3,190,000 at work was reported as a record for the month.

Graduates of the nation's colleges set a record last year with their gifts, donating \$102,000,000 to their alma maters. This total compared with \$72,000,000 in 1955 and about \$10,000,000 ten years ago.
