

Gill W. Klutz Dies In Lenoir

LENOIR, N. C., August 17—Gill Wyley Klutz, 62, well-known attorney in this area who had practiced law in Lenoir for the past 36 years, passed away at 8 o'clock this morning in a local hospital following an extended illness.

Funeral services will be conducted Monday morning at 10:30 o'clock at Zion Evangelical and Reformed Church with the Rev. Henry Meier, pastor of the church officiating. Burial will follow in the family plot in Bellevue Cemetery. Greer Funeral Home is in charge of arrangements.

Born Nov. 21, 1894, in Maiden, he was a son of the late Dr. Paul J. Klutz and Lou Ella Carpenter Klutz. His wife was Blanche Smith Klutz of Boone, who died in 1938.

Mr. Klutz, who made his offices in the McLean Building, first came to Lenoir to begin his law practice in 1921. He was a member of Zion Evangelical and Reformed Church and served on the Church Consistory for several years.

He served one term as Caldwell County Attorney several years ago and had been presently serving as vice president of the Caldwell Bar Association. He was a member of the Loyal Order of Moose, Patriotic Sons of America, American Legion, Veterans of Foreign Wars, and served in the U. S. Army in Europe during World War I. He also was a Mason and a member of Delta Theta Phi law fraternity.

He attended Trinity College, Washington and Lee University, Boston University, and was graduated from Wake Forest Law School in 1921.

Survivors are two daughters, Mrs. Paul Beck of Winston-Salem and Lenoir and Mrs. Bob Suddreth of Lenoir; two brothers, Loomis F. Klutz of Newton and Paul J. Klutz of Leland; two sisters, Mrs. Prueella Lewis of Maiden and Mrs. Lottie Persian of St. Petersburg, Fla.; and a grandson.

HIGHER EDUCATION

The President's Committee on Education Beyond the High School has reported that the nation's colleges already over-crowded would be confronted by 1870 by a number of young men and women double that of today's college enrollment. In contrast to today's enrollment of 3,000,000, the nation's colleges must find means of providing education for 6,000,000 young people.

Slee-eyed Mable Townsend picks blackberries from wild bushes on her father's mountainside farm near Boone. The pleasant 11-year-old gathered the fruit for a stranger who was visiting her parents.—John Corey photo.

Says Mountain Folk Generous

By JOHN COREY
Mountaineers are probably the least commercial-minded people in the country.

Visit a mountain farm during the summer. If you don't carry on too much like an urban big-shot, chances are good the farmer will like you and offer you some apples, blackberries, cabbage, fresh corn, or may be, a bouquet of wild flowers.

The generosity often includes his wife and children helping in picking the fruits and vegetables, and even carrying them to your car.

No strings are attached. It's just the mountaineer's way of being neighborly.

He'll frown on your trying to pay for the booty.

Should you succeed in clasping a dollar bill in his young, bashful daughter's hand, he thinks you're overly generous.

Yet five dollars worth of produce given you could be in the ear.

Few mountaineers are monetarily rich. But they do possess hordes

of wealth in spirit of giving and sharing, even with strangers, what they do have.

Rites Held For Edward Dula

LENOIR, N. C., August 17—Edward Weimer Dula, 45, dispensing optician of Durham and former Lenoir resident, passed away Friday in Durham.

Funeral services will be conducted at the First Methodist Church here Sunday afternoon at 2 o'clock with the Rev. Herman Duncan officiating. Burial will follow in Bellevue Cemetery.

He was a son of the late Dr. A. W. Dula and Addie Mast Dula of Lenoir and attended the Lenoir city schools and Appalachian State Teachers College at Boone.

Surviving are his wife, the former Sara Best; three children, Fred and Ann of the home, and Sara Jo; two brothers, Dr. Fred Dula and Henry M. Dula, both of Lenoir; and a sister, Mrs. Harry Hickman of Lenoir.

Fire Destroys Huffman Home At Blowing Rock

BLOWING ROCK, August 17—Fire of unknown origin Wednesday morning at Blowing Rock completely destroyed the Huffman residence of Mr. and Mrs. Floyd G. Huffman, Sr., of Hickory. Even their clothing was burned. Mrs. Huffman said today.

The property is located on Green Hill adjoining the property of Mrs. Adrian L. Shuford, Sr., of Conover.

Mrs. Huffman was in the village at the time the flames broke out, and while she had heard the fire truck leave, she had no idea it was headed for her own house until she returned from her errands.

As she came in sight of the house she saw a line of cars but thought it was some friends from Hickory coming up for the fashion show.

Then she noticed flames licking out of the building. Next thing she knew she was up in the hospital. In the excitement she had blacked completely out.

The residence was only partially covered by insurance. The house was constructed of heart pine and therefore quickly went up in flames.

Two Are Added To Faculty

Two additions to the Lees-McRae College faculty have been announced by Acting President E. L. Lafferty. Miss Phoebe Wakefield of Banner Elk will be added as instructor of mathematics. Miss Wakefield holds a B. S. degree from Flora Macdonald College and a M. A. degree from Appalachian State Teacher's College. She has had wide teaching experience in the high schools of North Carolina, teaching last year in Concord. She is a member of the National Education Association, the North Carolina Education Association, the Classroom Teachers Association, and the National Council of Mathematics Teachers.

Fred Brewer of Maryville, Tennessee will join the science department of Lees-McRae as instructor in biology and botany. Mr. Brewer has an A. B. degree from Maryville College and M. S. degree from the University of Tennessee. He has also done graduate work at Appalachian State Teacher's College, Indiana University, Peabody College, and the University of Durham (England). He is a member of Phi Delta Kappa, the Southeastern Association of Biologists, and the Indiana Academy of Science and has traveled in England and France.

THE REA

Borrowers from the rural power development fund of the Rural Electrification Administration are meeting their obligations promptly. Of the 988 active electric borrowers, only nine were in arrears on payments as of August 1. The amount of the past-due payments was \$200,600 out of slightly more than \$2,900,000,000 in extended loans. Most of the borrowers are farmer cooperatives, organized to extend electrical service to farms.

Planetarium Makes Trip To Venus Real

Want to take a trip out of this world this summer? To the planet Venus Via rocket ship?

If so, it might be well to plan now for reservations at the Morehead Planetarium in Chapel Hill.

Flights of the nuclear powered space ship, "The Wanderer," will leave at 8:30 o'clock every night, at 11 a. m., 9 and 4 p. m. on Saturdays and at 2, 3, and 4 p. m. on Sundays from now through September.

This new space travel adventure takes excursionists on a simulated tour of nearly 100,000,000 miles in only 50 minutes to one of the most intriguing and mysterious of all known planets.

Before departure or after de-landing, visitors are invited to inspect the \$3,000,000 gift of John Motley Morehead, industrialist and philanthropist, to the University of North Carolina. It has made a deep and permanent impression upon all who visit it.

The magnificent building houses not only the great Zeiss planetarium, which is one of only six in the western hemisphere, but also are and scientific exhibits of both North Carolinians and out-of-staters.

The Morehead Art Galleries this summer are featuring a collection of North Carolina scenes, painted by Geoffrey Jenkinson of Thomasville.

In the Planetarium garden, 25 varieties of roses and many other flowers and shrubs form a beautiful setting for the most modern example of that most ancient time piece, the Sundial. The 36-foot sundial is the largest of its kind in the world.

The Copernican Orrery, one of two such installations in the world, is an impressive and instructive public-controlled mechanism. Visitors merely push a button and set in motion a 35-foot model of the solar system. Concealed ultraviolet lighting contributes to the impression that the celestial orbs are floating in space.

The Planetarium chamber itself is literally a beautiful theatre of the stars, wherein visitors are carried backward and forward in time to any period and to any observing point on earth. With a few theatrics, it is possible to transform the air-conditioned chamber into a realistic preview of the interior of a space ship of the future.

So realistic are the visual and sound effects that one has the impression sensation he is actually moving through space at a phenomenal rate of speed. Landings are made on both the moon and planet Venus and passengers are thrilled over their explorations of a whole new world and excited by the full rich colors of the heavenly bodies.

Water Figure Was In Error

The Morehead Planetarium building is open daily from 2 to 5 p. m. and from 7:30 to 10 p. m., Saturday 10 to 10 on Sundays from 1 to 10 p. m.

In a story about a new well the Town of Boone tested, it was stated that money needed to cover cost of expansion of the Boone water system would come "from the recently voted \$40,000 water expansion plan." The sentence should have read "... from the recently voted \$75,000 water expansion plan." Mayor Gordon H. Winkler called attention to the error, and the writer of the story regrets giving the wrong information.

Crest's School Opening Sale NOW IN PROGRESS

NOTE: Last week's ad stated that this sale would start Sept. 15. This was an error. Our School Sale Started AUGUST 15, and is still in progress with many specials in school supplies

NOTICE

Because of the intense and continuous cold in our Zero Storage Room, the ground underneath has frozen. This has caused the floor to heave, breaking the cork insulation under the floors and cracking the cork walls and ceilings. The condition has become so bad the equipment has all it can do to hold the low temperature required. The machinery is having to run all of the time, with no let up.

This means we must stop using the locker room. We are very sorry that we must ask you to give up your lockers, but it is necessary to protect your food. Please arrange to remove it as soon as possible.

We Have Set SEPTEMBER 15th As The Date Locker Service Will Be Discontinued

If you have paid rent in advance, it will be refunded.

We will continue to be at your service for chilling and processing meats, but will be unable to freeze them. We thank you for your patronage in the past and hope you will continue to use the chilling and processing service.
