

Flower Show

(Continued from page one)

INDIA REJECTS BOMB BID
India has rejected a United States invitation to observe a "clean" hydrogen bomb test in the Pacific this summer, according to a State Department announcement. The Soviet Union and Czechoslovakia also have turned down the bid.
The State Department press officer, Lincoln White, said only Belgium and Sweden had agreed to attend the test. Invitations were sent to fourteen member countries of the United Nations committee on radioactivity.
Drop in business outlays is expected to continue.

CERTIFIED BY CAA
Louisville, Ky. — An airplane that resembles a large toy is the first home-made two-wing craft to be certified by the Civil Aeronautics Authority in Kentucky.
The biplane, built by Joseph K. Wesley, 32, is 12 feet long and its wings span is 16 and 13 feet. It has a 60-horsepower engine and cruises at about 100 miles an hour.
Wesley, an airplane mechanic, said the plane, which he made from spare parts from other planes, cost less than \$500 to build. He has about 90 hours' flying time in the one-seater.

Gross dairy farm income in North Carolina went over the billion dollar mark in 1957.
Side dress long season crops like tomatoes, peppers, pole beans and okra to keep them producing.

Paul said to Mr. Ed:

The pastor of a small church in Scotland was collecting subscriptions for the building of a fence around the church's cemetery. Everyone gave something with the exception of old MacTavish. Later, the pastor asked why he refused.
"We'l," replied Mac, "I don't see any use in a fence around a cemetery. Those that are in there can't get out, and them what's out sure don't want to get in."—Ex.
