University Women Blowing Rock Have Meeting

Thirteen members attended the Boone Branch of The American Association of University Women on May 16 in the Appalachian State Teachers College Library Science classroom. Mrs. Foster Park, vice president, outlined plans for programs during the coming year which will begin in July.

Dr. Ina VanNoppen, president, introduced the members who had attended the State Convention in Charlotte. The delegates divided the program into three parts. Mrs. E. H. Gibson reported on the Friday meeting. Mrs. David Hodgins reported on the Saturday session, and Mrs. Foster Park told of plans made at the board meeting.

The group was given a report of International Fellowships and awards which amounted to more than \$14,500. These awards were announced by the national committee in March. The Boone branch was recognized in the AAUW New Bulletin of the North Carolina Division. The president distributed copies to members present.

Dr. Green M. Reudi, Professor of Sociology at Southwest Missouri College, Springfield, Missouri, was the speaker at the State Convention. She asked the North Carolina members to be thinking of legislation concerning the sale of poison, and of requiring a prescription for sleeping tablets. She told the group that 16,000 children swallowed poison last year and 500 of them died. She also pointed out that many deaths were caused by taking an overdose of sleeping tablets.

The Boone branch will meet in private homes during the summer. The June meeting will be held at the home of Mrs. David Hodgins.

Blowing Rock Garden Club

Door prizes were given at the beginning of the Blowing Rock Garden Club meeting on Tuesday morning, May 16, held in the Community Assembly Hall. Mrs. Polly Robinson and Mrs. Phillip Fall served coffee and cookies.

The hall was beautifully decorated with wild flowers, pink and white dogwood, trilliums, wild iris and violets. This was in keeping with the subject for the program of the morning.

Much interest was shown in the presentation of slides on wild flowers by Miss Anna Perryman and Dr. Minnie Smith of Winston-Salem. These pictures were collected by the Wild Flower Club of Winston-Salem who started the wild flower garden in Tanglewood Park.

Dr. Smith gave a brief bit of information about each flower as the pictures were shown. A business session was held, new members received into the club and a report of the beautification committee was given by Mrs. Charles Davant, Jr.

At the close of the meeting Mrs. Snyder, the president, invited the members and guests to her home on Linville Road for lunch. Thirty-five club members enjoyed the hospitality of the hostess, the lovely lunch and the charming home nestled in a spot of native wild flowers and shrubs, also planted with bulbs and flowering shrubs just bursting into bloom.

The club wishes to thank Mrs. Snyder for the occasion and for her efforts in arranging for the programs for the club.

Telephone Talk by H. M. INABINET Your Telephone Manager

LOOK WHO'S TALKING on her new Princess phone! She's in "teen heaven" for the Princess appeals to nearly everyone. (And no wonder, it's the newest and prettiest phone we've ever made.) But especially to a growing young lady, it's so nice to curl up with in privacy and tiny enough to hold in her hand. Even the soft night light makes things cozier when you-know-who calls a little later than he should. . . Grownups, too, like the Princess' smart styling and compact size. So believe me, wherever you need an extension phone—and that's any room you'd like to phone from—you'll find the Princess goes there and goes beautifully. Why not see this lovely little phone at our business office? In five colors.

Household Hints

House Cleaning Hints—Put a dash of ammonia on your cleaning cloth and wipe grease spatters and film from the top of stove and oven front. It cleans quickly and without effort. Wipe dry. There is no smear.

There is an improved starch on the market that will stay in through eight to fifteen washings. It doesn't wash out. It's easy to use. There is no starchy look. You'll find it on your grocery store shelf.

Choose Colorful Vegetables—Choose colorful vegetables to add color to meals and nutrition, too. All kinds of greens, peas, beans, carrots, yams sweet potatoes, squash or beets. These will keep any plate from looking "all white" or "dull brown."

Interesting Ways To Put Variety In Meals—Perfect on all green vegetables is cheese sauce. Or, use cheese sauce for scalloping onions, carrots, potatoes, and cauliflower.

Sometimes pour a little cream (sweet or sour) on cooked vegetables instead of, or in addition to, the butter. It's extra good on wax beans, pea, turnips, onions, diced potatoes. Sour cream with a little chopped onion or chives is mighty good on baked Irish potato or on boiled potatoes.

Use a little of the vegetable liquid when you make a cream sauce. Salt well—this means salt,

pepper, and often bits of browned onion or a bouillon cube.
