

DR. HUGH S. DANIEL, JR.

Dr. Daniel Is Named To Alumni Post

Dr. Hugh S. Daniel, Jr., a Waynesville optometrist, has been named to the Advisory Council of the Appalachian State Teachers College Alumni Association by President Leroy Sossamon of Bryson City.

Dr. Daniel replaces Gene Wike of Asheville, whose term of office has expired.

Sossamon said that Dr. Daniel will serve on the council with Garnet Clark, Winston-Salem; Mark David, Hickory; A. H. Felton, Garner; Dr. Francis Hoover, Boone; E. G. Lackey, Winston-Salem; John Nantz, Greensboro; Jack Park, Charlotte; Ralph Sinclair, Troutman; Jack Ruffing Greensboro; Ray Walker, Sparta; and Charles Walters, Shelby.

Dr. Daniel, who has been at Waynesville since 1948, is a native of Franklinton, N. C. and is a 1943 graduate of ASTC. He served in the Army during World War II and attended the Southern College of Optometry in Memphis, Tenn.

Dr. Daniel's wife, the former Ruby Donald, was a member of the Appalachian faculty in the 1940's.

Dr. Daniel is active in civic and church life. In 1961 he received the Lions Club Man of the Year award in Waynesville. He is a member of the Citizens Committee for Better Schools, the Chamber of Commerce and the Waynesville Recreation Development Commission. Currently he is president of the Waynesville Golf Club and is a past president of the Waynesville Recreation Commission and the Hazelwood PTA.

Also, he holds a rather unusual job in his work as president of the western district Appalachian Alumni Chapter.

Rather than being in charge of the activities of alumni in only one county, the Waynesville optometrist coordinates the activities of alumni scattered over a 13-county area in western North Carolina.

The western district chapter was presented a trophy for having the highest percentage of attendance by members on roll during the 1960-61 year.

Farm Tax Guide Being Offered

According to John E. Wall, district director, Internal Revenue Service, Greensboro, farmers in this area can get some valuable tips from an official publication of Internal Revenue Service. It's the "Farmer's Tax Guide, 1963 Edition."

This booklet, Mr. Wall said, is available at no cost from the Internal Revenue Service or agricultural agents.

Consult

Jerry Coe
about this question:
"Hunting season is here again. I want insurance on my guns and equipment—also liability coverage in case I injure someone—and accident insurance for the season to cover personal injuries to myself. Can your agency fill the bill on all this insurance?"

PARALYZED MAN BAGS DEER

Harrisville, W. Va.—A jeweler, Ted Cox followed his usual good luck and bagged a deer on the opening day of the hunting season.
Cox hunts from a wheel chair because his legs are paralyzed from an accident. He has gotten 3 deer in the last 4 years.

Trees Can Aid Or Hurt Landscape Scheme

Trees are certainly the most important feature of any home garden as far as decoration is concerned. They are the background but are most often treated quite haphazardly. People sometimes forget that trees have the power to make any house look permanent or temporary.
There is a strong temptation for people who build new houses on bare land to plant too many trees and these too close together. They don't take into consideration that, by doing this, they are defeating the very purpose for which the trees were planted. That is, to grow and provide ornament and shade in the yard.
The best and safest thing for a person who is thinking of investing money in several trees

for the yard or thinking of cutting down any tree already growing in the yard is to consult a tree expert or buy a good, well-known book on trees and get down to some serious study on the subject.
For example—too many people do not know that there is a great deal of difference between a Norway maple and a

sugar maple. When the facts are known a sugar maple is much more to be desired because it increases in value as it ages, while a twenty year old Norway maple is nothing more than a liability.
Another thing that should be taken into consideration is the size the tree being planted will be when full grown, in scale

with the size of the house and property it is to adorn.
On a large property, flowering trees and large shade trees planted in groups are very effective. Where the grounds are small, dwarf fruit trees and shrubs are best.
U. S. fighting men maintain a ready force in 31 lands.
