RECORD TAX COLLECTIONS
The Government collected a record \$99,400,000,000 from American taxpayers in the fiscal year ending last June 30.
The Internal Revenue Service said collections were \$5,000,000,000 more than in the previous year.
Bid to raise pay in services is due in Congress soon.

Legal Notices

NOTICE NORTH CAROLINA WATAUGA COUNTY

Under and by the virtue of the power of sale contained in a certain deed of trust executed by Thomas Payne and wife, Bessie Payne, dated September 26, 1960, and recorded in Deed of Trust Book 96, at Page 40, in the office of the Register of Deeds of Watauga County, North Carolina, default having been made in the payment of the indebtedness thereby secured and said deed of trust being by the terms thereof subject to foreclosure, the undersigned trustee will offer for sale at public auction to the highest bidder for cash at the courthouse door in Boone, Watauga County, North Carolina at 12:00 o'clock noon, on the 9th day of February, 1963, the property conveyed in said deed of trust, the same lying and being in New River Township Watauga County, North Carolina, and more particularly described as follows:

TRACT ONE: LYING and being near the Town of Boone, and being Lots Numbers 58B, 59A in Block "B" described and contained in a certain map made by H. K. Setzer, G. E., which map is registered in the Register of Deeds Office of Watauga County in Book of Maps 1, at Page 74, reference to which is hereby made for further description. The above numbered lots being a part of the subdivision known as the Daniel Boone Cabin Colony.

TRACT TWO: A certain lot of parcel of land lying and being in Watauga County, near the town of Boone, and being Lots Nos. 604 and 60B in Block "B" described and contained in a certain map made by H. K. Setzer, G. E., which map is registered in the office of the Register of Deeds of Watauga County, in Book of Maps No. 1, at Page 74. Reference to which is hereby made for further description. The above two lots being a part of the subdivision known as the Daniel Boone Cabin Colony.

But this sale will be made subject to all outstanding and unpaid taxes and municipal assessments.

This 8th day of January, 1963.
Stacy C. Eggers, Jr., Trustee 1-17-4c-e

ADVERTISEMENT FOR OUTFALL SEWER LINES SEWAGE PUMPING STATION AND SEWAGE TREATMENT PLANT FOR THE TOWN OF BLOWING ROCK, N. C.

SEALED PROPOSALS will be received by the Town Clerk of Blowing Rock, N. C. in the Town Hall in Blowing Rock, N. C. until 11:00 a. m. March 4, 1963, for the construction of Outfall Sewer Lines, Sewage Pumping Station and Sewage Treatment Plant. The work will embrace furnishing all labor, equipment and materials for the construction of approximately 14,127 lineal feet of sewer lines, 65 manholes, pumping station and 985 lineal feet of 6" cast iron force line, aerobic sewage treatment plant and access road. All of the above as shown on the plans or called for in the specifications.

Those desiring full scale plans and complete specifications may obtain them from The Town Clerk at Blowing Rock, N. C. or from P. L. Abernethy, Engineer, Hickory, N. C. upon the payment of \$25.00, which amount will be returned only to those who submit bona fide bids upon the work.

Consideration will be given only to bids of Contractors showing that they are licensed under "An Act to Regulate the Practice of General Contracting" as ratified by the General Assembly of North Carolina on March 28, 1957, or as subsequently amended by the General Assembly.

Each proposal must be accompanied by a bid deposit or bond of 5% of the base bid as provided by Section 143-129 of N. C. G. S.

All bids shall be on bid forms bound in the specifications and all bidders shall bid on all items in Section One or Section Two or all items in both Section One and Section Two.

Plans and Specifications will be on file at the A. G. C. Office in Charlotte, N. C.

No Proposal may be withdrawn after the scheduled closing time for the receipt of bids for a period of 45 days.

Bids will be opened and read in public in the presence of those interested in the Town Hall at Blowing Rock, N. C. at 11:00 a. m. March 4, 1963. The right is reserved to reject any or all proposals, to waive informality and to award a contract or contracts which, in the opinion of the town council, appears to be in the best interest of the Town of Blowing Rock, N. C.

By order of the Board of Aldermen: R. B. Hardin, Mayor
ENGINEER: P. L. Abernethy, 519 Second Street, N. W., Hickory, N. C. 1-31-4c

Ready cash, it seems, is able to outdo magicians in a disappearing act.

Preventive Vaccines Are Of Great Value To Mankind

Never in the history of the world has it been possible to protect one's self and family against so many serious diseases easily and effectively through preventive vaccines, says Dr. Mary Michal of the local Health Department. The big problem is that many people do not take advantage of these advances offered by medical science, she emphasizes.

"All of us have heard a great deal about polio vaccine," she said, "and most of us have been immunized against this crippling disease, although many still have not. But we tend to forget the potential killers smallpox, tetanus, whooping cough and diphtheria. During the past year there were several outbreaks of small pox in Great Britain. A possibly serious outbreak at New York City's Idlewild Airport was thwarted by quick action of health officers who vaccinated all those exposed to a boy who was stricken with the disease. And during the winter of 1961-1962 there was an outbreak of diphtheria in Omaha, Nebraska. Tetanus is a constant threat in any injury."

Mr. Michal continued: "In World War I the British Army suffered 800 cases per 100,000

battle wounded men early before any preventive care was developed, and later 100 cases per 100,000 after antitoxin given at the time of such injuries. The U. S. Army had 13 cases per 100,000 battle wounded, antitoxin then in use. In World War II the British in men immunized by tetanus toxoid the rate of cases of tetanus in battle-wounded was 5.5 per 100,000; and in the U. S. Army 0.2 per 100,000; and U. S. Navy 0."

Dr. Michal said all babies should be given injections against diphtheria, whooping cough and tetanus beginning at the early months of age. These shots may be conveniently given in a "triple" vaccine containing all three protectors. A polio shot or oral vaccine can be obtained at the same visit to the doctor. Vaccination against smallpox should be obtained during the first years of life. "For adults as well as children," Dr. Michal said, "booster doses of vaccines are necessary from time to time in order to maintain protection from these diseases. To prevent these serious and possibly fatal diseases everyone should keep a record of previous vaccinations and find out from his doctor when the next booster doses are due."

Tax Refunds May Be Made In U. S. Bonds

If you're in line for a refund on your 1962 Federal income tax return, County Savings Bonds Chairman A. T. Adams has a word for you. Two words, in fact: Take bonds.

This year for the first time, Mr. Adams points out, Uncle Sam is making it possible for you to take your refund in Series E Savings Bonds by the simple expedient of putting an "X" in the appropriate box on the tax form.

Last year some 40 million taxpayers received cash refunds on their taxes. Judging from samplings of opinion, a lot of them would have preferred to get their money in Savings Bonds if they had the chance. Bond Chairman A. T. Adams, who is assistant vice-president of The North-western Bank, wants to make sure any of them who live in Watauga County know they now have that chance.

The way the bond option works is simple. The Treasury will issue the smallest possible number of E Bonds of the largest denominations to cover the amount of the refund. If there's anything left over, a check will be written for the balance. The one complication comes if the cash balance is from one to 99 cents, since the check-issuing apparatus can't handle anything less than a dollar. Details are given in the instructions.

What about joint returns? Mr. Adams gave us the answer to

that one, too. "John and Mary Smith" on the tax return becomes "John or Mary Smith" on the bond registration, making them co-owners.

Know The Weather

By E. H. SIMS
When is the tornado season? In what direction should you look for tornadoes, in case of a tornado warning?

The tornado season will begin in about two months. Tornadoes are more frequent in spring and early summer than any other time of the year, although they occur at other times during the year. Some have been reported during recent winter months. Tornadoes can be expected to approach from the west, as a general rule. They may come from the northwest or the southwest, but—in most cases—they will come from a westerly direction.

They do not move at great speed, but the circular winds within the funnel are very high velocity winds. They should be avoided always, and because of their smallness, one can practically always dodge them in an automobile, or even sometimes on foot—in daylight.
