MILITARY PAY INCREASE

The administration recommended to Congress a military pay boost averaging 14.4 per cent for active duty servicemen and Reservists. The program for military pay raise was prepared by a Defense Department group under the direction of William Gorham, deputy assistant secretary of defense for manpower.

Secretary of Defense Robert S. McNamara estimated the changes would cost about \$1.75 billion on an average annual basis.

CHINA'S ROAD-BUILDING

United States intelligence experts are concerned about extensive road building by Red China along its southern border. It was recalled that the Communist Chinese undertook considerable road construction and establishment of advanced supply dumps before invading Tibet in 1950 and India last fall.

The South China province borders directly on Burma, North Vietnam and Laos and is within a few miles of Thailand.

Fashion News

The turban is a classic in the hat line just as the shirtwaist dress is a classic in its line. One reason for this is its variety in style, color and size which makes it a hat for many different faces.

This seasons turbans are unusually attractive. They may be of silk, fine cotton or chiffon. Some of them are designed to give an exotic look to one's costume. Others are of a practical nature and are used to cover unruly hairdo's or protect them from the wind.

Sweaters, sweaters, sweaters! People who haven't knitted a garment or a scarf since World War I have taken up knitting again. One reason for this is the simple patterns being offered and the lovely yarns for sale.

FAITHFUL DOG
Beresford, S. Dakota—When searchers found the frozen bodies of Ruben Poppens, 30, and James Tackett, 39, the older man's dog was standing beside him. Both men were blind and apparently became lost and froze to death. The dog, which had been with them when they set out in the cold weather, had to be coaxed away.
