Chamber Of Commerce News Legislative Report listing all business and prof

To the people of Watauga

County: This is expected to be the week of decision in the General Assembly concerning Sena-torial Redistricting. Both the Senate and the House have had this problem before them since the first day of this session, and both have now come forward with different approaches to the problem. Pending in the Senate is a double-barrel approach, combining the "Currie Bill" with the Humber Bill which calls for a Constitutional Amendment to enlarge the Senate to sixty members. Meanwhile the House has only the Currie Bill before it. The problem remains one which the Legislature is finding both difficult and painful, and it will be impossible to satisfy every-

Another disagreement has de veloped concerning the Mini-mum Wage Law. In the House, the majority has finally indi-cated that the rise should be to 85c per hour (the present rate is 75c per hour). Fierce debate surrounded the fight, and an amendment to increase the fig-ure to \$1.00 per hour beginning in 1965 lost by only three votes. The \$1.00 figure has been adopted by the Senate, and thus the battle will continue.

In the Public Utilities Committees, the struggle between the private power companies and the electric membership cooperatives is continuing, and unless the present situation improves, this promises to be the most bloody battle of the 1963 General Assembly. Thus far, compromise appears impossible, and it may reach the point that a do-or-die fight cannot be avoided. At this time, the problem stands out as the one least close to solution, and the rush for adjournment is beginning

The Appropriations Bill is set for debate in the Senate and probably in the House this week. The much-publicized effort to obtain a 10% increase in pay for Highway employees and State employees other than teachers is expected to continue on the House floor, where Rep. Sam Whitehurst of Craven County is leading the fight. When this proposal was offered in the Appropriations Com-mittee, no cut in appropriations elsewhere in the budget was suggested, and without a sound fiscal basis to stand on, the proposal failed. The failure of the Sanford administration to support the pay increase has also been a stumbling block in the path of those urging the

raise. Court reform proposals are now in the House and Senate, and again, a different approach has been taken by each branch. The two bodies agree in principle that a drafting commission should be appointed to prepare legislation to be introduced in the 1965 General Assembly. The House committee has recom-mended, however, that this vital Commission be appointed jointly by the Governor, the Speak-er of the House, and the President of the Senate. The Senate committee has recommended that the Commission be appointed by a 9-man committee com-posed primarily of members of Raleigh. the Legislature. While this difference may not be settled easily, I am confident that it will be settled and that this Legislature will thus take the first

big step in the job of imple-menting the Constitutional Amendment passed by the peo-ple last November. Turning to the local scene, our Watauga legislation con-

tinues to move. The bill authorizing the County Commission ers to increase the salaries of the Sheriff and Deputies has now passed both houses. I wish to correct an erroneous report circulated in several papers, to the effect that the measure authorized two additional deput-

ies. The bill affected only the discretionary authority of the oners concerning salaries. The bill introduced by Rep

Clyde Harriss of Rowan, directing Watauga County Democrats to return to the Convention system, is now in a Senate Committee, where another hearing was scheduled this week. I recently received a letter from the Grand Jury which served at Watauga's April Term of Superior Court, to the effect that the fees paid to jurors in

our county remain low and that mileage for jurors is now paid for only one trip, even girl. though jurors must come to Boone each day that Court is in girl. session. The grand jury recommended that some adjustments girl.

mined by the county Commis-sioners, of course, within certain bounds. I have discussed the matter with the Commissioners, and they have indicated that the schedule of fees will be re-viewed for possible revision. They have also indicated their interest in having jurors reim-bursed for their travel expense

bursed for their travel expens each day, and since this a legislative matter, your representa-tive is new preparing a bill to allow travel compensation each day to those of you who will from time to time be called on to serve on our Superior Court juries. This will not involve any tax money but will be paid for out of court costs. As al-ways, I urge those of you who are interested in this matter to contact your representative in

Sincerely yours, Jim Holshouser
