

Wataugans At Work

Photographer Jerry N. Sudderth, a native of Watauga County who commutes from Lenoir to work in Boone each day, has been employed by Flowers Photo Shop since September, 1961. An Army veteran, he is married to the former Miss Suma Hardin of Lenoir; the Sudderths have a six-month-old daughter, Kelli Renae. After completing

CARD OF THANKS

We wish to express our deep appreciation to our many friends, Reins-Sturdivant Funeral home and to Rev. R. C. Eggers, Rev. Lloyd Cullers, Rev. Larry Penley and Rev. Ed Hodges for their many acts of kindness shown to us during the death of our husband and father. The John C. Hodges family.

When a man wants to borrow money to buy something he can always discover a dire need.

The Rev. and Mrs. Glenn South visited Sunday afternoon with Mr. and Mrs. Clyde

Eggers at Boone.

Dinner guests Saturday with Miss Lula Bumgardner were Mr. and Mrs. Isaac Snyder and son, Allen of Route 1, Trade, Mr. Don Bumgardner of Creston, Earl Bumgardner of Route 1, and Mrs. Glenn South and Mr. and Mrs. Frank Bumgardner of Trade.

The girl who goes in for sun glasses can have a varied choice this season. The trend seems to be to larger and darker glasses. Some designs have a wrap around effect which shields the eyes from side glare. Frames are plastic and range from black to pastel shades in color.

TOTAL PERFORMANCE:

FORD GALAXIE 500/XL SPORTS HARDTOP

IF YOU KNEW WHAT THIS "CAR KILLER" KNOWS...YOU'D BE DRIVING A SOLID, SILENT SUPER TORQUE FORD

This steel-edged pothole is probably the world's toughest test of a car's suspension. We drive into this car killer at 30 mph, locking our brakes as we go so the wheels can't roll through the hole as they normally would. The car slams against the far edge of the hole with such impact that it literally bounds out.

If you added up the cumulative effect of all the jars and jolts your car's suspension system experiences in years of normal driving, it wouldn't match the impact of one trip through the hole. Yet—a Ford must run this test three times to prove its strength.

How can a Ford take it? Because Ford's front suspension has extra beef in spindles, springs, suspension arms—in fact, it's about 20 pounds heavier than the front suspension of our principal competitor's car.

We don't expect you to abuse your car the way we do our test cars. But, however you drive, you'll welcome the extra strength of a total performance Ford. Ford strength is tested in a thousand ways in Ford's laboratories and proving grounds—and in open competition in the world's toughest rallies and stock car events.

Look at Ford's astounding record in open competition this year in the grueling Daytona, Riverside, and Atlanta 500's, the World 600 at Charlotte, N.C., and in the demanding Pure Oil Performance Trials. Only a car with total performance—the best combination of strength, balance, precision control and road-clinging suspension—could roll up so many wins.

Before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Make this important discovery: if it's built by Ford, it's built for performance...total performance.
