

Washington Report

By CONGRESSMAN JAMES T. BROYHILL

The United States Military and Naval academies rank among the nation's finest institutions of higher learning. Together, they offer young men excellent opportunities for education and lifetime careers as professional officers. Their graduates emerge with bachelor of science degrees and commissions in the Army or Navy, taking places of responsibility and leadership in the defense of the country. The mission of these Federal academies requires men of ability and serious purpose who are highly motivated toward military careers. Similarly, the large investment of time and funds the Federal government makes in each cadet or midshipman at the academies call for the best young men that can be found for these respected schools.

Appointments to the academies are made primarily by Congressmen and Senators. It is my strong belief that these appointments should be determined by the widest possible

Now there is a house paint with color that lasts

Now you can paint your house with pleasant, attractive colors and have it stay that way. Because now there's a house paint with color that lasts. Dutch Boy Latex House Paint. It's new. It's completely different. In this paint the color is locked right in... in Dutch Boy's exclusive acrylic resin. No chalking to mask the color. Even after years of exposure to sun and weather, you can touch up spots and see no color difference. Use it on wood, masonry, galvanized iron or aluminum. Sound good? Looks better! competition within the 9th District, and I am now accepting applications from young men who wish to become candidates for the District's vacancies to occur at West Point and Annapolis in 1964. Basic qualifications require that candidates must have successfully completed high school by July, 1964, be unmarried and have reached their 17th but not their 22nd birthdays by that date.

All candidates will be required to undergo preliminary physical examinations which I have arranged to be given by the Army in Charlotte, and a preliminary scholastic examination I have asked the U. S. Civil Service Commission to conduct in November of this year. By law, I am required to consider only those young men who are residents of the 11 counties of the 9th District.

In 1964, I expect two vacancies at West Point and two at Annapolis. I will also name men to compete for North Carolina's vacancies at the U. S. Merchant Marine Academy at Kings Point, New York.

I will be pleased to furnish complete information to young men who may wish to become candidates.
