

First For Purity

Natural Refrigeration

Sure We Are Going To Serve You

... just as efficiently as we have for many years the good people on this side of the Albemarle Sound — and with just as fine products as are obtainable on the American market, or anywhere.

That's one of the reasons why we are glad to see the beautiful bridge across historic Albemarle Sound opened, so you may have a service you'll appreciate, and it will be our happy privilege to serve you, and that you will come to Edenton often, visit our stores, homes, churches and while in the past we have been so far apart, but so near, we ought to be good neighbors, now that we can.

We are ice manufacturers, sell Coolerator Air-conditioned Refrigerators and the famous Iron Fireman. An old Edenton institution which is interested in any advancement or progressive movement for this or any section of the famous old Albemarle area.

LET US SERVE YOU, AND DON'T FAIL TO VISIT THE CELEBRATION

We Hope You Come to Edenton Over the New Bridge the First Day It Opens—And

This Is a Special Invitation For You to Visit and Inspect Our Plant

IRON FIREMAN *Heatmaker* DELUXE GIVES TRIPLE VALUE

NO COAL HANDLING

Iron Fireman's *Coal Flow* model carries coal from bin to fire; you never see the coal. Iron Fireman makes bin-fed and hopper models in sizes for firing boilers developing up to 500 horsepower.

ONLY \$249
INSTALLED IN YOUR PRESENT FURNACE
Lowest Iron Fireman price in history. Only \$8.97 a month after small down payment. Ask for demonstration.

1- finest automatic heating -

Coal is nature's finest, safest fuel. Iron Fireman, with its principle of forced underfiring, transforms coal into ideal automatic heat—abundant, full-bodied, healthful.

2- lower fuel costs -

Coal, our permanent fuel supply, is also the *cheapest* of all automatic fuels. Iron Fireman burns small-size, low-cost coal with maximum efficiency.

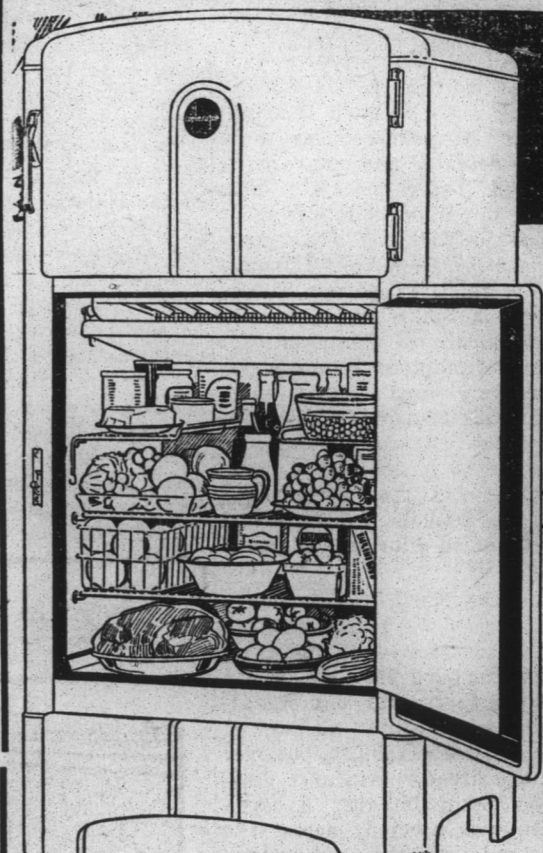

3- low first cost low up-keep -

Iron Fireman's *De Luxe Heatmaker* is available at the lowest price in history. It gives you more for your money than any other automatic firing equipment because of its unequalled endurance. Note these mechanical features:

- 1 "Electrical Brain" Regulators. Control house temperatures and condition of fire 24 hours a day.
- 2 "Volumeter" Air Regulator. As efficient as a human lung. Supplies fire with approximately 15 pounds of air for each pound of coal.
- 3 Radial Vane Air Pressure Generator. Heavy duty. Quiet operation.
- 4 Continuous Feed Transmission. Drives feed worm at steady speed. Silent.
- 5 Super Efficiency Nozzle. Scientifically designed "carburetor." Self-cleaning tuyeres.
- 6 "Easy-Flow" Feed Worm. Strongest fuel conveyor ever built. Smooth as glass; uses little power. "Hot-temp" chrome-steel fire tip.
