

# This Old Institution Salutes and Welcomes as Neighbors The Good People Across The Famous Albemarle Sound

Plant of the Edenton Cotton Mills, Edenton, North Carolina, Spinners of Fine Cotton Yarns, Warps and Skeins

## We Congratulate The Progressive

# PEOPLE OF THE ALBEMARLE

Our faith and belief in the future growth and development of the entire Albemarle section of North Carolina has never been shaken . . . its progress during the past decade, from both an industrial as well as agricultural standpoint has been most gratifying, and we are, indeed, delighted with the part which it has been our privilege to play, and the contributions in many ways toward making the town, Chowan County and our fine adjoining counties among the finest and most progressive throughout all this splendid section of Eastern North Carolina.

In our own community, in the City of Edenton, and adjoining territory where our employees live, will be found the highest type of citizenship—industrious, intelligent and progressive. The social and civic life they live is far above the average, and they take an interest in their community's welfare, religious and educational affairs, and are an efficient and happy group of loyal employees. Throughout the history of this institution there has been no dispute or differences with our employees. We are proud of our people and appreciate the service and cooperation given in operating this plant.

☐ During the past, or since 1899, this company has made a practice of buying and consuming just as much locally raised cotton as possible. We want to use more, and with the opening of the magnificent bridge across the Albemarle Sound it is now possible for us to buy your cotton, thus giving you a consuming market for your product. Come to see us, know our organization and its employees . . . let us be good neighbors.

We Are Proud of the Contribution Toward the Progress and Development of Edenton and Our Section of North Carolina In Being Able to  
Provide Employment For a Large Number of Our Good Citizens, Consume Hundreds of Bales of Locally Grown Cotton, Pay Into  
Our Local Government Treasury Thousands of Dollars In Taxes and Further Pledge Ourselves to Support, Contribute and  
Help In the Promotion of Any Worth While Movement That Will Serve to Develop Our Fine Section and Be of  
Value and Service to Our Citizens
