Due To Little Opposition Only 300 Voters Plans Arrive For Participate In Edenton Election Tuesday; nallest Vote Registered Since 1935

Bufflap Leads In Contest For Two Councilmen-at-large

HOLTON LOSES

J. P. Partin Easy Winner Over J. L. Pettus In Third Ward

With only two contests for city offices, Tuesday's election in Edenton claimed little interest and as a result just about 300 voters went to the trouble to go to the polls to exercise their franchise privilege. It was the smallest vote registered since 1935, when only 92 votes were cast in an election in which there was no opposition for any of the offices.

In the four wards 301 votes were cast for Councilmen, there being a contest only in the Third Ward. The First Ward turned in the largest vote for all candidates, thus outvoting the Second Ward, where the largest vote is usually cast. However, voting dragged in all Wards and it was not unusual to find voters who had forgotten all about the day being

The highest vote went to W. H. Gardner for treasurer, who had no opposition. Mr. Gardner's vote was 266, and was followed by J. H. Conger, W. W. Byrum and O. Branning Perry, three unopposed candidates for the Board of Public Works, whose vote respectively was 261, 253 and 249. Leroy Haskett, unopposed as candidate for Mayor, followed with

ADVANTAGEOUS

Organization In Albemarle Approved By **State Committee**

The State Soil Conservation Committee has approved the organization of the Albemarle Conservation District, and a referendum on the organization of the district will be held during May 17-22 inclusive. All land owners and parties who have contracted to buy the land will be eligible to vote in the referendum. Voting will be accomplished through

Ballots, along with an explanatory letter, will be mailed out shortly and each land owner may mark his ballot, sign and drop it back in the mail or return it to the county agent's office. Should the vote be small or the opposition to the organization of any consequence, it will be very likely that the State Committee will deny the petition of the land owners in the proposed district to organize.

Since the approval of the State committee to organize an Albemarle District, three educational meetings have been held in Perquimans County and four in Chowan County, when the procedure to organize was explained and benefits to be derived by farmers in the proposed organized territory set forth. Among these were the technical assistance which the Soil Conservation Service would make available to the district for making surveys for drainage ways For Foreign Duty and other soil conservation measures, the granting of equipment by the the granting of equipment by the Soil Conservation Service to the district such as drag-pans, U-drags, First Chowan Girl to plows, graders, tractors, and other heavy equipment together with allotments of tree and Kudzu ceilings and other nursery stock.

Few Tax Sales

That Chowan County citizens are either becoming more tax conscious or else conditions are far better than in many years is reflected in the list of property advertised for sale due to delinquent 1942 taxes as appears for the first time in this issue of The Herald. The list is smaller than in many years, Sheriff J. A. Bunch being obliged to advertise just a little over 200 delinquents. It is the smallest number of delinquents to be published since The Herald was established.

The sale of property for the non-payment of 1942 taxes is scheduled to be held Monday, June 7, at 12 o'clock Noon, at the Court House door.

> J. H. McMULLAN, Mayor of the City of Edenton.

Horace B. Baines of Gatesville, an employee at the U. S. Marine Corps Air Station, has, without doubt, set an example which ery few Americans will match then it comes to buying war oonds. Mr. Baines is a carpenter at the air station and commutes to his work daily from Gatesville. He has been employed since October 26, 1942, and on January 1 he began putting 100 per cent of his salary into war bonds. But still Baines felt that he

Into United States War Bonds could do more, so in March he deposited every penny he had earned while employed at the air base in war bonds, and expects

to continue the practice.

He is a veteran of the first world war, a friendly jovial fel-low and has set a mark to shoot at-one which should put to shame a fellow like John L. Lewis and a group of miners who prefer to follow a leader like him rather than to help win
