From where I sit... by Joe Marsh

**On Playing the Fiddle Badly**

—with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a hell more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene—with its community music, home entertainment, friendly glass of beer—than to hold out for professional perfection. (Besides, I like to play the fiddle—even badly!)

Joe Marsh

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is there—harmony between folks who like each other's company, who enjoy the simple, homey atmosphere
