

Farm - Home Week August 25th - 29th

Speakers of National Reputation Will Be On Program

Farm and Home Week will be held this year at N. C. State College on August 25 to 29.

Every effort is being made to make Farm and Home Week outstanding with the best speakers available, excellent demonstrations and good recreation.

The fee for registration and room rent for the entire period is \$2.00 per person. Those persons who come in only for a day should register, but do not pay a fee. Meals will be served at the college cafeteria.

The program features outstanding national speakers namely: Dorothy Thompson, noted journalist and world-wide traveler who has recently returned from a trip through Poland and other European countries, and General Dwight Eisenhower.

There will be talks and discussions on new and improved methods and procedures for farm and home activities, also exhibits and demonstrations on home equipment, with emphasis on electrical appliances, the latest in farm machinery, and new methods in crop production and processing will be featured in exhibits.

Arrangements will be made for visitors to see places of historical interest in Raleigh and visits will be made to the College farms.

For recreation there will be group singing, square dances, contests with prizes and other enjoyable features.

Delegates to Farm and Home Week are being selected at Home Demonstration Club meeting this month.

Others who plan to attend should make reservations as early as possible.

"This promises to be a big week," says Miss Rebecca Colwell, home agent, who urges Club members to plan to attend. For further information see your County Home or Farm Agent.

Favorable Weather Helping Peanut Crop

Favorable weather conditions prevailed last week in the Virginia-North Carolina section for the growing peanut crop, and the plants are making rapid growth. Most of the fields are clean of grass.

All grades of cleaned and shelled peanuts are closely cleaned up. Only a small amount of trading was reported at prices a shade higher than last week. Sales and quotations f.o.b. shipping point, per lb., were reported as follows: Virginias, cleaned jumbos 20-20¹/₂¢, few higher; fancys 18-18¹/₂¢, few higher; shelled extra large 22-23¢; mediums 20-21¹/₂¢; No. 1s 17¹/₂-18¢, few higher; No. 2s 14¹/₂-15¢.

There was a fairly good demand for jumbos, fancys, mediums and No. 1s at the foregoing prices, and fair inquiry for extra large and No. 2s.

COTTON PRICES ADVANCE

Cotton prices advanced through Wednesday of last week when middling 15 16 inch hit a high for the week of 37.79. The market broke sharply the last two trading days and closed Friday at 37.32 as compared with 37.23 a week earlier and 29.16 a year ago.

Record Traffic Jam Expected On July 4

"Be Alive on the Fifth" Keynote of Nationwide Campaign

The biggest traffic jam in the nation's history will occur during the Fourth of July week-end holiday this year, the National Safety Council predicts.

To meet the threat of a record-breaking traffic toll, the Council appealed to motorists and pedestrians to "Be Alive on the Fifth" as the keynote of a nationwide campaign against accidents during the holiday.

Close to 30,000,000 vehicles are expected to pack the highways over the Fourth of July, the Council said, and their speedometers are expected to clock nearly four billion miles during the three-day holiday. This estimate is based on gasoline consumption, which shows mileage this year exceeding even the previous record level of pre-war 1941.

One hundred and thirty other national organizations have joined with the Council in a united effort to prevent a jamboree of carelessness over the Fourth.

The campaign is designed to help public officials, traffic officers and safety leaders in their efforts to curb the holiday death toll.

In asking for public support of the campaign, Ned H. Dearborn, president of the Council, pointed out that a similar coordinated effort last year helped to reduce the July traffic toll 23 per cent below the previous high in 1941.

"Nevertheless," he said, "8,300 persons died from accidents of all kinds in July last year, and as usual the Fourth of July celebration contributed substantially to that figure. This year we have many dangerous factors—a three-day holiday, increased mileage, relative prosperity. It adds up to a big celebration—and a big pile-up of dead and injured—unless we all make it our business to do something about it.

"We can do something about it, because these tragedies result from things we can control—haste, selfishness, thoughtlessness, the desire to show off.

"Take it easy on the Fourth. Be alive on the Fifth."
