

# Bad Tires One Of Main Reasons For Automobile Wrecks

## Car Owners Urged to Put Tires In Good Condition

Statistics show that one out of every five vehicles has some mechanical defect such as poor tires, faulty brakes, lights, wheel alignment or steering mechanism.

And one of the most important and most serious are bad tires. Are the tires on your car or truck worn so thin that a sharp curve or stone on the road would send you careening into a traffic tragedy? If they are, then you would do well to have them recapped or discard them for new ones, not only for your own safety, but to insure that your vehicle will pass its inspection test.

The Manual of Motor Vehicle Mechanical Inspection Requirements states that all motor vehicle tires "shall be free from any exposed fabric or bulges which indicate broken fabric or which exhibit dangerously

weakened conditions." In 1946, 520 fatal accidents and 9,240 non-fatal accidents in the United States were caused by punctures and blow-outs alone, demonstrating the importance of keeping tires in good condition at all times. It is believed by motor vehicle officials that tires are an even greater factor in accidents than is generally reported, for often when the investigating officer lists "drove off roadway" as the principal cause of an accident, it is logical to assume that with perfect tires, brakes and steering mechanism, the accident might not have happened.

Help prepare your car for its inspection check-up by having the tires in good condition before you report to the State Inspection Lane in your area.

## 42 Families Take Children To Hotel For Photographing

### Pictures Will Appear In Series of Installments In The Herald

Despite the very cold and disagreeable weather Saturday, 42 families took their children to Hotel Joseph Hewes to have their pictures taken by a representative of the Woltz Studios of Des Moines, Iowa. The photographer was very well pleased with the number who braved the elements and with favorable weather he said he felt reasonably sure many more would have come in. Proofs of the pictures taken will arrive about February 16 and shortly thereafter The Herald will be furnished cuts from which the pictures of the youngsters will be printed in the paper under a feature "Citizens of Tomorrow."

Several adults had their pictures taken Saturday and The Herald will be furnished one of the prints from which cuts can be made for possible future use.

#### Some Excuse

The prize excuse was introduced in a British court during the trial of a man charged with wife-beating. A neighbor described the blows in detail and the wife's helplessness.

In astonishment the judge asked: "Do you mean the court to understand that you stood by and let this man strike the poor woman again and again?"

"Yes, I saw it all."  
"And you made no effort to interfere?"  
"I couldn't."  
"Why?"  
"I was filling my pipe."

## A. C. Griffin Elected Farm Bureau President

(Continued from Page One)

Edwards said, farmers will have a hard job on their hands, so that he appealed for a united front and the full cooperation of Farm Bureau members.

North Carolina is fifth in the nation in Farm Bureau membership, he said, and this group can command a hearing on farm problems.

The speaker explained the cancellation of present peanut quotas, which, he said, will be detrimental to growers. He stated that quotas and support prices are necessary to stabilize crops.

Labor is protected, he said, so that farmers are entitled to be protected by 90% parity.

A peculiar situation exists in Eastern Carolina, said Mr. Edwards, in that it is not mechanized as in other sections. He urged the building up of soil, adequate drainage and prevention of erosion. In the latter respect he referred to "human erosion," pointing to the fact that many good folks are leaving farms for other methods of making a living.

"Chowan County has as good soil as any place in the world," said Mr. Edwards, "but boys and girls will not remain on farms unless financial security of the soil is maintained. Income should be increased which will

attract many who otherwise leave the farm."

In closing his remarks Mr. Edwards urged the development of a farm program through all agencies in order to bring about a higher net profit. He appealed to Farm Bureau members to stick together and work together for the best interest of agriculture.

Following Mr. Edwards' address, officers for the new year were elected. Those chosen to serve are:

President—A. C. Griffin.  
First Vice President—J. E. Baker.  
Second Vice President—W. A. Harrell.  
Secretary and Treasurer—E. S. White.

Board of Directors—E. N. Elliott, Tom Asbell, W. H. Saunders, L. E.

Twine, Carey Evans, Guy C. Hobbs and W. H. Hollowell.
