KERR SCOTT

## THE RECORD SPEAKS!

- KERR SCOTT defeated an entrenched office-holder for Commissioner of Agriculture in 1936. He revitalized the Department. He gained the reputation of being the nation's outstanding Commissioner of Agriculture.
- When KERR SCOTT resigned in February, so as not to run for Governor at the tax-payers' expense, he turned over to his successor a Department that had improved farm production and marketing and added vastly to the income of farmers, merchants and industry—and sent State revenues soaring.

(Louis Bromfield, the noted author, wrote recently: "This is a paean of praise to the State of North Carolina, and the great advances made by the State . . . Agricultural income there was increased from 200 million to 800 million dollars annually in five years" (during the administration of Kerr Scott as Commissioner of Agriculture).

- As Commissioner of Agriculture, Kerr Scott saved farmers millions of dollars "by taking the sand out of fertilizer and sawdust out of feed"; by pioneering development of wilt-resistant tobacco, improved corn, cotton and peanut seeds, and by making scales give honest weight, and gas pumps a full gallon.
- Kerr Scott, probably more than any one man in America, is responsible for rural electrification and the REA. He saw the need for electricity on farms, and with the late President Franklin D. Roosevelt, had tremendous influence in establishing the rural electrification program that is the boon of country life today. Kerr Scott is a vigorous advocate of extending not only electricity but telephones throughout North Carolina.
- Kerr Scott has lived on a dirt road all his life. He would revitalize the Highway Commission for the removal of the "mud tax" on rural population.
- Kerr Scott knows what it is to meet a private payroll and to PAY taxes. He is for a balanced budget and against the State going into debt for any purpose until the millions of dollars of tax money now in banks without interest are used for the purposes for which they were collected from the taxpayers.
- KERR SCOTT is for a State Government that sets the pace—does not lag behind the progress of the people. He believes that tax dollars should be returned—with interest—to the taxpayers in services such as better schools, better roads, better health.
- KERR SCOTT is for majority rule on all issues. He is against the Gag Rule. He is running for Governor without any big money chains around his neck, and he is making no campaign promises that would prevent his being Governor of all the people.
