

## Continuous Rains Prevents Dusting

### County Agent Also Reports Boll Weevils Very Active

Rainy weather for the past ten days has greatly handicapped cotton dusting, County Agent C. W. Overman reports. On the other hand the boll weevil seems to have continued with renewed vigor and vitality.

Field examinations last week and this week show the following:

1. Three fields properly dusted showed an average of 3% of the squares punctured. These fields have been dusted four times, with the last application on or about July 4.

2. Two fields where three early applications were made, the last being about June 26, show an average of 25% punctured squares.

3. Three fields which had not been dusted up to July 13 show an average of 55% punctured squares.

The County Agent suggests that farmers continue dusting each week through August 12. This means four more applications including this week. Growers should use about 12 to 15 pounds of 20% Toxaphene per acre per dusting.

#### Sulfur Dusting Peanuts

If the weather has prevented peanut growers from making the first application of sulfur dust to their peanuts the County Agent recommends that they begin at once. Apply 15 to 20 pounds of Copper Sulfur Dust or 25 pounds of straight sulfur per acre row. Come back again the last of July with your next application increasing the amount of dust from 3 to 5 pounds. If your land is early, it is suggested that you make a third application the second week in August. If your land is late, stop with the second application.

Freedom is as little lost in a day as won in a day.—Jean Paul Richter.  
Freedom cannot be granted, it must be taken.—Stirner.

## Theft Bureau Aids In Car Recoveries

The Theft Bureau assisted in the recovery of 41 motor vehicles during June and began investigation into thefts of 19 more, the North Carolina Department of Motor Vehicles has reported.

Of 4,816 trucks stopped by inspectors of the Theft Bureau, 395 were found to be overloaded.

North Carolina trucks stopped numbered 3,288 and out-of-state trucks, 1,528. Of the trucks found overloaded, 263 were over their license limit.

with 241 being North Carolina trucks and 22 out-of-state trucks. One hundred and thirty-two trucks were over the road limit, 86 being North Carolina trucks and 46 out-of-state trucks.

A total of \$59,756.46 was collected in penalties and additional license fees on overloaded trucks. Of the amount, \$12,272.69 was collected in additional fees and \$7,662.75 in penalties on pri-

vately-owned trucks. A total of \$24,669.49 in additional fees and \$22,853.12 penalties were collected on commercial vehicles.

Method is not less requisite in ordinary conversation than in writing, provided a man would talk to make himself understood.—Addison

Here's the **PRACTICAL, ECONOMICAL** Application of Self-Propelled Picking

## JOHN DEERE No. 226 CORN PICKER

The John Deere No. 226 Two-Row, Mounted Corn Picker is the practical, economical application of self-propelled picking.

It offers you nimble maneuverability, unexcelled view of work, efficient straight-through handling, easier steering in wet or rolling fields. You get all the advantages of self-propelled picking without the expense of a costly power unit that stands idle for at least ten months every year.

The big-capacity, clean-picking No. 226 has long been the favorite with large-acreage corn growers, seed corn raisers, and custom operators everywhere. It mounts easily on John Deere Models "A" and "B" Tractors. Ask us for free literature.

WE ALSO HAVE SEMI-MOUNTED ONE-ROW PICKERS AND SNAPPERS

# SINCLAIR SCOOPS 'EM ALL WITH THE BIGGEST GASOLINE NEWS IN YEARS

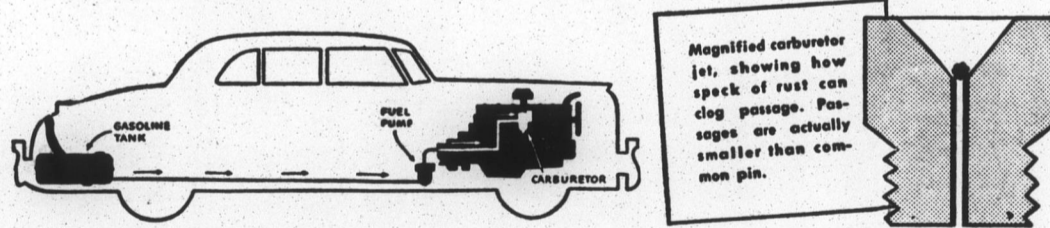

## Miracle ANTI-RUST Chemical Blended Into Power-Packed Sinclair Gasolines

Today ordinary gasoline has become old-fashioned. Today your Sinclair Dealer offers you POWER-PACKED Gasolines with an amazing EXTRA VALUE—a new chemical ingredient that solves the problem of rust and corrosion in your gasoline tank and fuel system. It's RD-119, a product of Sinclair Research.

Water forms regularly by condensation in every car's gasoline tank—causes rust and corrosion throughout whole fuel system when you use ordinary gasoline.

## RD-119 Stops Damaging Rust and Corrosion In Your Gasoline Tank and Fuel System

Magnified carburetor jet, showing how speck of rust can clog passage. Passages are actually smaller than common pin.

RD-119 coats the inside of your gasoline tank and fuel system with an invisible, water-proof film. It stops rust and corrosion that damage your gasoline tank, fuel pump carburetor—clog strainers and carburetor jets—cost you money in wasted gasoline and repairs.

Get POWER-PACKED Performance PLUS ANTI-RUST Protection at no extra cost. Use new Anti-Rust Sinclair H-C or Sinclair Ethyl Gasoline regularly.
