Farmers Urgen

Allotment Is Peanut Scheduled to Be Materially Reduced

"It is very important for Chowan Farmers to make the best possible use of every acre of their land in 1952," says Assistant County Agent Robert S. Marsh. "Since the peanut allotment will be materially reduced

in 1952, and since feed, fertilizer and ed to permanent pastures. Woodland "Pine tree seedlings are available type of land is usually unsuited for now ready for market. He also has other farming costs will be considerably increased, the importance of this statement can be understood.

"Nearly every acre of Chowan farm land, can be made in one of the three fastest growing to produce an income. A great deal timber sections of the nation, although of low wet or matured land which is very few farmers are taking advanuations."

"Pine tree seedlings are available from the State Nursery and can be from the State Nursery and can be from the State Nursery and can be anything other than growing trees."

W. T. Ellison, Extension Forester, trees should be thinned. Mr. Parks is consulted with Earl Parks of the now well enough informed so that he large enough for thinning and net stakes can be sold, and possibly some of low wet or matured land which is very few farmers are taking advanuance of this fact.

"Pine tree seedlings are available from the State Nursery and can be anything other than growing trees."

W. T. Ellison, Extension Forester, trees should be thinned. Mr. Parks is very proud of his tract worth when he sells his timber and is interested in manything other than growing trees."

W. T. Ellison, Extension Forester, trees should be thinned. Mr. Parks is very proud of his tract worth when he sells his timber and is interested in manything other than growing trees."

W. T. Ellison, Extension Forester, trees should be able to get his more of the large enough for thinning and net stakes can be sold, and possibly some best ways to utilize land which will other the selling trees.
