

## Red Spider Shows Up In Local Cotton Fields

### Pest Found on Farm of Lester Harrell In Cowpen Neck Section

Red spider has been reported on one Chowan county farm last week, according to Robert S. Marsh, assistant county agent. Lester Harrell of the Rocky Hock community, who also has a farm in the Cowpen Neck section, reported that his cotton in the Cowpen Neck section was infested with red spider. A visit to the field was made by Mr. Marsh, who suggested that he dust with plain sulfur dust to control this insect.

In case other farmers have infestations of red spider on their cotton, they will probably find that sulfur is the cheapest material to control it. Parathion and Tepp are also recommended. However, it is more difficult to use these materials than sulfur. For best results, materials must be applied to the under surface of the leaves. Sulfur should be used at the rate of 10 pounds per acre. In some cases one application is sufficient. However, two to three applications, five days apart may be necessary.

### Cpl. Linwood Stanley With "Hell On Wheels"

Corporal Linwood Stanley of Edenton is serving in Germany with the Second Armored "Hell on Wheels" Division.

The armored outfit joined the North Atlantic Pact Army in Europe last July. In World War II the division was the first American unit to enter the fallen city of Berlin.

Corporal Stanley entered the Army in August, 1950, and was assigned to the 94th Anti-Aircraft Artillery Battalion early last month.

## GOOD HEALTH

### Answer to Question No. 1:

Estimated losses from fatal and non-fatal accidents in 1951 were \$8 billion, including wage losses, medical expenses, insurance costs, production delays, damage to equipment and property. Accidents killed 93,000 people in the United States during the year and injured more than 9 million others. One out of every seventeen persons in the country suffered a disabling injury during the year. Automobile accidents killed 37,500, the highest toll in ten years. Home accidents took 27,000 lives and occupational mishaps caused 16,000 deaths. This should be a warning to all of us. Be careful!

### Answer to Question No. 2:

The average life expectancy of industrial workers in the United States today is more than 68 years. This represents a sharp increase over the average life span of industrial workers early in this cen-

tury when it was only 47 years. It reflects, among other things, the wide expansion of medical knowledge, the defeat of many diseases, advances in sanitary practices, improved diet, and better working conditions.

### Answer to Question No. 3:

Bursitis is one of the most common, most discomforting and least understood of ordinary human afflictions. It commonly involves the bursa (sac with fluid over a joint) over the shoulder. Bursitis usually comes from an injury or an infection and frequently can be treated by simple means under the direction of your family doctor. If it does not readily yield to this treatment, the physician may withdraw the fluid or give X-ray treatment, or apply a restraining brace. Surgery is rarely needed.

### Boll Weevil Damage Increasing In Chowan

According to County Agent C. W. Overman, the boll weevil situation in Chowan County based on field checks last week, indicates that dusting should continue. Six dusted fields

averaged four per cent punctured square while six undusted fields averaged 22 per cent punctured squares. In one undusted field Mr. Overman found 63 per cent of the squares punctured and there were considerably less punctured squares in this field two weeks ago.

### YOUTH'S CORN VERY PROMISING

Paul Blanchard, son of Mr. and Mrs. E. G. Blanchard of the Gliden community, has an acre of corn which looks very promising. Although it suffered from the hot, dry weather in June, it has come out remarkably well and Paul should get a good yield. Vandy Parks, son of Mr. and Mrs. Earl Parks, also of the Gliden community, has a nice acre of corn. So does Gerald Lester Harrell, son of Mr. and Mrs. Lester Harrell of the Rocky Hock community.

### NICE CROP OF PEACHES

Six years ago George H. Privott of the Edenton community set about two acres of sandy land to peach trees. This year Mr. Privott is harvesting a nice crop of peaches. Varieties used were Golden Jubilee, Hiley Belle, Georgia Belle and Elberta. Mr. Privott finds that a good spray program controls worms and brown rot and good fertilization and cultivation produces thrifty trees.

## Minutes Of Board Of Public Works

Edenton, N. C., July 2, 1952.

The Board of Public Works met this day in the Town Office at 5 o'clock P. M. in regular monthly session. Present, J. H. Conger, chairman, Ralph E. Parrish and Dr. J. A. Powell.

Jones, \$5.20; N. C. Tel. & Tel. Co., \$12.35; Sinclair Refining Co., \$81.54; Railway Express Agency, \$10.98; Postmaster, \$32.80; Virginia Electric & Power Co., \$5,977.67; general salaries paid for month of June, \$2,890.56; total, \$14,455.92. Received from Collector for current, water and merchandise, \$15,582.59. Amount of receipts in excess of disbursements, \$1,126.67. A. S. HOLLOWELL, Clerk.

Ferguson's mighty valve-in-head engine, with the most remarkable torque characteristic of all, gives you enormous lugging ability. This power, working with the genuine Ferguson System is the secret of Ferguson performance. The important thing to be said here is that performance such as this permits you to farm more land... easier, more intensively, and at lower cost. A "Showdown" demonstration on your farm will convince you of this. Telephone us and we'll quickly arrange such a demonstration for you.

## More Eloquent Than Words!

It is true, of course, that a Cadillac owner is proud of everything about his motor car. But it is also true that he reserves a special place in his heart for the beautiful crest that rides high on the hood. For here, as only he can fully appreciate, is one of the most wonderful and unique symbols in all the world of manufactured products. In fact, it seems safe to say that no other mark of identification speaks so clearly or so eloquently of the product that bears it... and of the man who owns it. It tells, for instance, of magnificent engineering and inspired design—and of experienced craftsmanship and painstaking construction. It promises mile after mile of superlative motoring enjoyment—and it foretells year after year of dependable and enduring performance. It proclaims, in short, the Cadillac pledge of quality—that here is an automobile built to the highest

standards it is practical to enforce in the production of a motor car. And, oh, the wonderful things it says about the man behind the wheel! It reveals, more surely than if the words were spoken, that he is a man of position and achievement in his own private world of affairs. It attests to the high regard he places on the safety and the comfort of his fellow passengers. And it says, with unmistakable clarity, that he is a person of discernment and good taste. Little wonder that the man who owns a Cadillac takes special pride in the beautiful crest that identifies it and adorns it.

The Cadillac crest tells its most eloquent story when it adorns the magnificent car illustrated above. For here is the illustrious eight-passenger Cadillac "75"—so luxurious, spacious and distinguished that it stands alone among the world's motor cars.
