Congressman Bonner Speaker At Meeting Lions Club Monday

Speaks About Future of New Administration In Washington

OPTIMISTIC

Says Democrats Did Not Lose to Republicans But to Eisenhower

Congressman Herbert C. Bonner was guest speaker at the regular meeting of the Edenton Lions Club Monday night. Dr. A. F. Downum was in charge of the program and had requested Mr. Bonner to tell the club what the future holds under the new administration.

"I have great confidence in the overwhelming majority of the people," said Congressman Bonner, "I hold the highest regard for General Eisenhower and am proud that such a man is the product of this country."

"These are perilous times, the administration of our government for the last 20 years has been good. Certainly there have been some things to be ashamed of, but for the most part our country has been under an able government. It is my opinion that the man representing the Democratic party in the recent election was one of America's greatest men but people have been observing, they were restless, and were elated to think that the man who had so ably led our armed forces would again lead them."

"Yes, our government has been good for the last 20 years. I have watched good men leave the government for the opportunities that industry would offer, leaving only the mediocre who were unable to stand the temptations afforded them."

"It is easy to criticize our agreements at Yalta and Potsdam but at that time we were extremely anxious to encourage good relationships with the country that is now giving us so much trouble. We did not expect the Russians to act as they have. If the Communists were allowed to look to the only solvent nation in it. This led to the support of the organizations that led up to the United Nations. Now we are on one side and the Russians are on another. A great deal of criticism has been brought about due to the fact that hindsight is better than foresight."

"There is only one place in the world where heartbreaks and tears can be ended. Moscow is the key to peace."

"We obligated ourselves when we agreed to the terms of the United Nations. We agreed to defend any country attacked by the Communists. This so-called police action is going to be a long drawn-out ordeal. If we withdraw from Korea the Communists will start trouble in some other spot—Trieste, Berlin, or Iran. We can not withdraw from Korea. To withdraw from Korea would mean to withdraw to Japan, then to withdraw to Korea."

Woman's Club Now In Quandary About Green Improvement!

Town Council Asked For Letter Stating Position on Matter

Following action taken by Town Council at its October meeting to hold up work of changing the sidewalks crossing the Court House Green in order to put the walks into symmetrical alignment, Miss Elizabeth Moore, chairwoman of the Woman's Club Beautification Committee, is in a quandary as to the status of completing the club's Green beautification project.

It is the purpose of the committee to change the walks so that they extend to the ends of the Green. Town Council previously went along with his idea, but work was held up until weather so that there would be a minimum amount of damage to the grass.

In the meantime some objection developed to changing the sidewalks and at the October meeting Town Council instructed the Street Department to hold up on the work.

In order to get a clearer understanding of the status of the Green Project, Miss Moore has written the following letter to Mayor Leroy Hassett and Town Council:

To the Honorable Mayor and Council:

"From The Chowan Herald account of your October meeting, the Edenton Woman's Club has gathered the impression that you have changed your minds about wishing to bring the walks on the green into symmetrical alignment. Last spring, when we offered you for this purpose the \$240 remaining in our green fund, and our willingness to raise another \$100 if necessary, we were very much pleased with your acceptance, and particularly with your willingness to continue
