

14,225 N. C. Licenses Revoked In 1952

Over Half of Revocations and Suspensions Caused By Liquor

That liquor can cause more than the morning after blues is clearly illustrated by a report from the Department of Motor Vehicles which showed over half of all drivers license revocations and suspensions in 1952 resulted from mixing liquor and gasoline.

In all 20,632 Tar Heel motorists lost their legal driving privileges in 1952 with 9,697 convicted of drunk driving charges. Another 486 licenses were suspended following convictions of transporting liquor.

Other major violations, and subsequent loss of licenses, included in the year end report were: 934 for speeding over 75 mph; 725 for two offenses of speeding over 55 mph; 720 for driving after license revoked; 624 for reckless driving; 245 for driving after license suspended; and 233 for larceny of automobile.

Last year 1,602 motorists failed to maintain proof of financial responsibility and consequently lost their driving privileges, which is included in the total.

Total revocations for the year came to 14,225 and suspensions to 6,407.

CLIFFORD R. HOPE

Representative Clifford R. Hope (R-Kan.), chairman of the House Agriculture Committee, will be one of the outstanding speakers to appear on the final day's program of the 17th Annual North Carolina Farm Bureau Convention, which will be held in Charlotte, February 1-4.

The Kansas lawmaker has been a member of the Agriculture Committee since 1927 and the ranking Republican since 1932. He succeeds Congressman Harold D. Cooley, (D-NC), as committee chairman in the eighty-third Congress.

One election every four years is enough.

REPORT OF CONDITION OF

Buick's Beautiful New 1953 Skylark

THE beauty and elegance of sports car styling are combined with big car comfort and roominess in Buick's beautiful Skylark sports car for 1953. Powered by Buick's 188 horsepower valve-in-head V-8 engine hooked up to the new Twin Turbine Dynaflo, the Skylark is equipped with power steering, power brakes, wire wheels, whitewall tires, Easy-Eye glass and electronic radio as standard equipment. It is available in 16 colors and four interior trim options. The Skylark will be built in limited quantities only.

THE FACT OF WAR

At the present time it appears that the United Nations cannot win the war in Korea. Neither can the United Nations quit. A withdrawal of the armies would be tantamount to defeat before the United Nations come to grips with the main enemy.

At the present time the conflict ranges between democracy and communism, between freedom and tyranny, and maybe in its finality between the West and the East. China the heart of Asia has been lost to communism. It may be a long period of time before China can be regained. There can be no hope of regaining China until armed communism is overthrown throughout Asia.

The incoming President will be war President. He has no choice in

the fact of the matter. He must accept the war as it now is. No doubt but that American economy must remain a war economy for a long time to come. The American taxes will remain high and if possible rise higher. In all probability millions more young men will be drafted and trained and see service in the war zones in some part of the world. It is not a matter of choice with America but a matter of necessity. Should America cease to hold her lines of defense not only would freedom in America fail but democracy would collapse around the world. In the past America with her loyal citizens has had the wealth and means of production to enable her to defend her freedom against all enemies. Not many times in the history of America has her citizenship been war weary. Historians tell us that out of the last 3400 years that 3100 years have been years of war. Apparently the world is on the verge of the worst years of all history.

Local Police Arrest 51 During December

According to Chief of Police George I. Dail, Edenton police made 51 arrests during the month of December. Of this number 50 were found guilty and one not guilty. Miscellaneous traffic violators led the list at 14, followed by drunks at 7. Those arrested included 27 white males, no white females, 23 colored males and one colored female.

Fines amounted to \$713 and costs \$452.77, or a total of \$1,165.77, of which amount \$222.50 was returned to the town in way of officers' fees.

During the month police answered 51 calls, investigated three accidents, recovered one stolen automobile, worked four funerals, reported 49 street lights out, extended 54 courtesies, found 12 doors unlocked, made 45 investigations, answered one fire call, issued 535 traffic citations. The police made 552 radio calls and were on the air 46 minutes.

Fair Proportion

Can't see the furore about these 40-60 per cent horseburgers. Years ago a sausage maker was accused of adding horse meat to his rabbit sausage. When the judge asked what mixture he used, he said, "50-50."

"What do you mean?" asked the judge, "a pound of horse to a pound of rabbit?"

"No," said the sausage man, "one horse to one rabbit."

Announcing a great new 1953 oil

Helps keep new engines running like new, young engines from growing old.

...for the great new '53 cars and all cars in A-1 shape

No other premium quality heavy-duty motor oil will do all these things so well for your car all year 'round:

- Maintain new car performance longer
- Reduce engine wear
- Provide easier starting in cold weather
- Fight engine deposits that cause knocking
- Reduce cold weather battery drain
- Reduce power loss
- Protect against sludge formation
- Protect against corrosion

UNIFLO... an entirely new idea in engine protection... will do more for your new car engine year 'round than any other leading heavy duty motor oil. It replaces the different grades of motor oil many motorists have had to use in different seasons of the year... giving you one all-around motor oil for all temperatures. Uniflo flows freely at 25° below zero and gives you quick easy starts with less drain on your battery.

Yet at engine temperatures of 350° or more you get outstanding lubrication protection.

Until now, carbon deposits have reduced the efficiency of new engines after a few thousand miles... often causing knock. Uniflo checks these deposits in a clean engine, keeps it running like new and greatly reduces engine wear.

These features make it the ideal motor oil for modern tight-fitting high-compression engines. Uniflo was developed only for such engines — in older engines our other fine motor oils will give full protection. Uniflo is approved by leading car manufacturers for year 'round use in new cars and cars in A-1 shape.

©UNIFLO is the registered trade mark of Esso Standard Oil Company

Another fine ESSO product for Happy Motoring!
