

# Many Post-Korean Vets Educated By Korean GI Bill

## 84,000 Being Benefitted By New Public Law 550

Two-thirds of the post-Korean veterans taking education and training under the Korean GI Bill are enrolled in college and university classes, Veterans Administration reported.

On the basis of enrollment figures of the spring semester, VA found a total of 84,000 veterans of service since Korea taking education and training benefits under Public Law 550, which has been in effect six months.

Approximately one-fourth of the total, the report said, are attending schools below the college level, including trade schools, business institutes and the like. Less than 10,000 of the Korean veterans are enrolled in on-job training.

A small number, about 500, are engaged in farm training courses, which are a combination of classroom work and actual farm operations.

Nearly 200,000 applications for training under the Korean GI Bill have been received altogether, VA said, and it is expected that larger numbers will enter training in the months ahead.

More than 1,500,000 veterans have returned to civil life since the beginning of the Korean action, and a steady increase in the number is being registered each month.

### Coast Guard Cautions Against Oil Pollution

"Since oil pollution of Virginia, Maryland and North Carolina coastal areas is becoming a serious problem," Rear Adm. Russell E. Wood, USCG, commander, Fifth Coast Guard District, says, "I urge ship operators and waterfront industries to give greater attention to the prevention of pollution by oil spills or careless pumping of vessels' bilges."

He added that discharge of oil in navigable coastal and inland water areas is illegal and punishable. In addition he cautioned against pumping waste oil or bilge refuse into waters outside the continental limits of the United States should the waste material be carried into U. S. waters because of prevailing currents or tides.

Noting that the yachting and bathing season is only a short while away, Rear Admiral Wood hopes all beachfront areas and waterways will be free of spilled oil by the time bathers start heading for the beaches.

## AMERICA'S BUSIEST MINISTER

Dr. Norman Vincent Peale, one of America's most popular ministers, must certainly be the busiest.

Pastor of America's oldest Protestant institution, New York's Marble Collegiate Church, the Reverend Dr. Peale conveys to the thousands who crowd into his church every Sunday a revitalized religion, based on the idea that spiritual faith is something they need and want, an indispensable ingredient for full and happy lives.

Dr. Norman Vincent Peale

But this is only a beginning for this handsome, dynamic preacher. His weekly activities include a Sunday radio program, a syndicated newspaper column, a regular magazine feature, and busy sessions as editor-in-chief of the inspirational magazine, "Guidedposts." Just recently, he inaugurated with Mrs. Peale, a national television program, "What's Your Problem?" the first and only husband-and-wife religious TV feature. With leading psychiatrists, he operates a counseling service available free to people of every faith and race. So great is he in demand as a lecturer, that a single week might find

him addressing audiences in San Francisco, Minneapolis, and New Orleans.

Yet despite this almost unbelievable schedule, he has still another major achievement. He has written books that have attracted millions of readers, and his latest, "The Power of Positive Thinking," is a record-breaking best-seller.

Dr. Peale built his congregations by going among people and "selling" religion in terms of their problems and needs. This practical application of faith permeates all his sermons. "You need never be defeated by anything," he writes in "The Power of Positive Thinking." "You can have peace of mind, improved health, and a never-ceasing flow of energy." These enormous accomplishments, he demonstrates with dramatic case histories, can be realized by using faith and optimism as guides to positive thinking and acting.

Many doctors send patients to Dr. Peale's services for what they call "spiritual therapy." Certainly the millions he has helped are living proof that the revitalized religion he advocates serves many needs and problems.

Mrs. Peale

### New UNC Publication Has 50,000 Circulation

The University of North Carolina at Chapel Hill has a new publication. It is a four-page bulletin called "The University Report" and its purpose is to present a digest of the more important and significant developments at Chapel Hill.

The initial issue has just been placed in the mails, and others are to follow every two months.

The first issue was sent to 50,000 people, including friends, alumni, trustees, legislators, administrative officials, faculty, and students and parents.

It is sent free and is financed by the University's Development Council. Robert W. Madry, director of the University News Bureau, and Charles Shaffer, director of the Development Council, are co-editors.

An announcement in the first issue says "it will be the purpose of the publication to keep the citizens of North Carolina and alumni in other states informed of the progress of their University at Chapel Hill and thereby, to stimulate interest in its support, to the end that the University may fulfill their hopes, ambitions and

### North Carolina Film Shown In 33 Countries

Over 48,000 persons in 33 foreign countries viewed the movie "Meet North Carolina" last year, the State Department has advised the Department of Conservation and Development.

Total showings were reported as 443. Largest number of showings were in England, 103. There were 21 showings reported in Yugoslavia to audiences totaling 2,101. Showings were reported in other countries as follows: Australia 6, Switzerland 26, Argentina 17, Brazil 11, Union of South Africa 12, Sweden 18, Pakistan 5, Syria 6, Iraq 2, Indonesia 11,

The film, produced by the Esso Standard Oil Company in 1946, was made available to the State Department for its world-wide information service. Domestic showings are arranged within Esso territory by the North Carolina Division, Esso Standard Oil Company, in Charlotte, and domestic groups outside Esso territory requesting it are served by the State Travel Bureau, with which Esso deposited two prints of the 35mm picture, in color with sound.

### MYF Sub-District Meets At Woodland

The sub-district of the Chowan-Perquimans M.Y.F. met Monday night, March 16, at the Woodland Methodist Church.

The Rev. E. B. Edwards of Edenton gave a very inspiring talk especially aimed at the Young People on "We Need Christ Now."

As a conclusion to the program the Rev. H. M. Jamieson showed the group some slides on Christ before and after the crucifixion.

Britton Byrum, Sammy Byrum, Jack Evans, Stuart Hollowell and Leon Privott, all from Chowan High School, were guest singers for the evening. They sang two selections.

Nonie Lou Lane presided over the business meeting. Two churches, Center Hill and New Hope, had 100 per cent membership attendance. Each month the church with the highest percentage of members present receives a MYF banner. In the case of Monday night another banner had to be ordered. When one church keeps

the banner for four consecutive meetings it then belongs to that group permanently.

The meeting adjourned with the M.Y.F. benediction after which refreshments were served.

A Youth Rally in Elizabeth City Saturday night, April 18, will take the place of the regular monthly meeting.

### There's a REASON why NATURAL CHILEAN NITRATE means a DIFFERENCE in results!

One difference between Natural Chilean Nitrate and other nitrogen fertilizers is quality - natural quality. It is the world's only natural source of nitrate nitrogen.

The nitrogen content of Chilean Nitrate is 100% nitrate nitrogen - 100% available - 100% fast-acting - 100% dependable.

No antidote is necessary. Chilean Nitrate is non-acid forming.

Rich in sodium and minor elements. Chilean Nitrate is rich in beneficial sodium that makes a stronger, deeper root system - improves crop health, vigor and nutritive value. It also contains small quantities of essential minor elements.

Noted for all-round efficiency. Quick-acting 100% nitrate nitrogen makes rapid, sturdy growth. Its 26% sodium content acts like potash when necessary and helps to increase the supply of available phosphate in the soil.

Chilean Nitrate's free flowing pellets guarantee rapid, accurate distribution under all conditions. No special precautions needed.

Helps maintain productivity of your land. When used consistently in a sound farming program, Chilean Nitrate builds up fertility, increases efficiency.

Year after year. Natural Chilean Nitrate increases yields - improves quality - defends against disease - fortifies against insect injury - counteracts soil acidity. Use Chilean Nitrate for solid satisfaction!

Chilean Nitrate is the ONLY fertilizer that supplies nitrate nitrogen, beneficial sodium and essential minor elements.
