## Boll Weevils Starting Invade Cotton Fields

### County Agent Overman Urges Farmers Start Dusting at Once

Cotton is beginning to square in Chowan County, and County Agent C. W. Overman says, "Now is the time to start dusting to control the boll weevil. The weevils are there and beginning to work, so start this week and dust every seven days for three applications. Use about eight pounds of cotton dust per acre each application. You can use 20 per cent Toxaphene, or a mixture containing 2½ per cent Aldrin and 5 per cent DDT, or a mixture containing 2½ per cent Dieldrin and 5 per cent DDT. Do not use BHC (Benzene Hexo Chloride) because of your peanuts."

Twelve cotton fields scattered over the county were examined on Monday and Tuesday by Mr. Overman. Three fields were examined where the plants were too small for squares. Field No. 1 had 25 weevils per 100 plants; field No. 2 had eight weevils per 100 plants, and field No. 3 had two weevils per 100 plants.

Seven undusted fields with squares were examined. Every field had punctured squares and live weevils were found in five of them. The highest

was 29 per cent punctured squares and the lowest was 12 per cent punctured squares. The average was 17 per cent punctured squares.

The two dusted fields were practically clean.

"This situation is not serious," says Mr. Overman, "if we start dusting at once. Three weekly applications should about clean them up for the present."

"Don't share crop with the boll weevil. Control him."

### Bill Aimed At Those Who Refuse To Tell If They Are Communists

Senator Willis Smith says that any government employee who refuses to say whether he is a Communist has no right to draw pay from the government.

"Accordingly, Senator Smith has introduced a bill which would cut off the government pay of any person refusing to answer the question before any Congressional committee."

Senator Smith said that "it is unthinkable to me that the taxpayers should be asked to support individuals who think so little of their government that they cannot truthfully assert their loyalty to it."
