### Training School Planned

On April 10 and 11 a 4-H Leaders Training School in clothing will be held in Elizabeth City. The subject will be "Getting the Most Out of Your Sewing Machine" and its objective will be to equip 4-H leaders with knowledge and skills on the care and use of the sewing machine so they can more effectively work with the 4-H clothing members at various stages of development. We in extension service feel that through better trained leaders, members will learn more about the care and use of the sewing machine and thereby develop more confidence, become more aware of quality workmanship, attain better results in sewing, and achieve greater satisfaction.

The training school is conducted by the Extension Service in cooperation with the Singer Sewing Machine Company and the National Committee on Boys' and Girls' Club Work. The teaching personnel of the Singer Company will conduct the training in the company's classrooms at Elizabeth City. No clothing construction will be taught.

Only instruction on the use and care of the sewing machine will be offered. Printed materials and fabrics are furnished to those taking the course and certificates are given to the leaders when they

### Out of the Frying Pan Into the Broiler

Have you been over-working your frying pan? If so, why not use the broiler and give your frying pan a rest. Broiling is as quick and easy as frying and uses less fat. Broiler meals are quick, easy to prepare, and very delicious. You can broil one food or a whole meal in a single pan.

Select tender meats, vegetable and fruits for broiling.

Steaks, chops, cured pork, fish, chopped meats, liver, weiners and young chicken are good broiling meats. Veal is not too good for broiling because it has very little fat. Fresh pork should not be broiled. It needs longer, more thorough cooking for safe eating.

All tender, quick cooking fruits and vegetables are good for broiling.

Here are two broiler meals that you might like to try soon.
