Good Pastures Pay Good Dividends

By C. W. OVERMAN, Chowan County Agent

Gilliam Wood of Edenton community is convinced that good pastures properly managed pay good dividends. Mr. Wood also believes that beef cattle help to make good pastures and pay a maximum dividend, according to County Agent C. W. Overman.

Mr. Overman visited Gilliam's pastures and beef cattle with him on Thursday afternoon. The county agent found that Mr. Wood is

following a good fertilization program for his pastures and is getting excellent results. The pastures were top dressed in February with about 400 to 500 pounds of 0-9-27. On the predominantly grass pastures, Mr. Wood is top dressing with nitrogen.

Gilliam has slightly over one acre of good improved pasture per breeding animal on the farm. The pasture is divided into several sec-

tions and grazing is rotated regularly for maximum returns.

Mr. Wood has a herd of approximately 60 breeding cattle many of which are high grade and some registered Angus. He has a fine crop of spring calves. Mr. Wood is finding this beef cattle program to be a good enterprise on his farm.

Health For All

New Clothes

Remember the old story of "The Emperor's New Clothes"? It comes to mind especially at this season when we are all proudly sporting our new Easter outfits.

You recall that the Emperor wanted new clothes so much better than those worn by ordinary people that a couple of sharp operators were able to hoodwink him into paying a huge sum for an outfit that didn't exist at all. They assured him that the material and workmanship were so fine that only the most highly cultured could appreciate it. So, of course, he and all his court had to pretend to see it.

As he marched in the parade, naked as a jaybird, all the townspeople, too, imagined he must be wearing clothes too fine for them to see. Only one small boy was honest enough to say, "He's got nothing on at all."

That boy had the honest eye of the X-ray. We can kid ourselves, but not the X-ray. It sees beneath the surface to reality. It is invaluable to the doctor in diagnosing tuberculosis which often does not have obvious outward symptoms in its early stages. And it's in those early stages that the disease can most easily and quickly be cured. Delay can mean serious, crippling illness, even death.

But the eye of the X-ray can't see unless we ask it to. We have to stop kidding ourselves. We have to stop pretending TB can't happen to us. It does happen to nearly a hundred thousand people a year, people of all ages and races, rich and poor. Our best protection against the development of a serious case of TB is to invite the X-ray to take a look. Your doctor will tell you how often you should have a complete physical check-up including a chest X-ray.

BLOODSHED BOXSCORE ON N. C. HIGHWAYS

Raleigh—The Motor Vehicles Department's summary of traffic deaths through 10 A. M., April 23, 1957 is as follows:

Killed This Year.....289
Killed To Date Last Year.....308

Be not so highted to any custom as to worship it at the expense of truth. —Zimmerman.

Too often society looks at a man and says he has one bad eye, when what's more important is that he has one good one. —Paul Harvey News.

Tips on Touring

By Carol Lane Women's Travel Authority

Safe Travel With Children

Your children will be better behaved, safer passengers if you teach them these safety rules before starting on your motoring vacation:

1. Don't stick arms or head out of the window.
2. Don't play with the cigarette lighter or any dashboard controls.

3. Don't distract the driver by shouting, jumping, or bumping his arm.
4. Touch only the handle when opening and closing car doors. Keep the other hand completely off the car — to avoid mashed fingers.
5. Keep the car doors locked. There are special safety locks available for the rear doors.

And here are some tips for the driver:
Avoid sudden starts and stops. Concentrate on the road. Pull off the road and stop the car to settle squabbles. Turn the front wheels to the curb when parking downhill. When leaving children in parked cars, remove ignition key, set handbrake firmly, leave car in gear (or in "park" position for automatic transmissions).

HINTS TO HOMEMAKERS

By RUTH CURRENT

Many Ways with Cheese—Cheese is a boon to casseroles. Calorie-watchers find that a small serving of cheese has a lot of staying power, and that low-calorie cottage cheese, creamed or uncreamed, is one of their chief blessings! Cheese can be used in a wide variety of ways.

Storing Cheese—Store perishable soft cheese as carefully as you do milk—in the refrigerator in a tightly covered container.

Soft cheese should be bought in the amounts to be used in a short time. Other cheeses keep well in the amounts to be used in a short time. Other cheeses keep well in a cold place tightly wrapped so that air is kept from it. Wrap un-packaged cheese tightly in waxed paper, laminated foil, or similar wrappings. If mold forms, scrape off—it does not hurt the cheese.

Should cheese dry and become hard, grate it and keep in covered container. It can be used in casserole dishes and sauces. One-half to three-fourths cup grated cheese to

one cup of medium cream sauce makes a good cheese sauce. This sauce is tasty poured over sliced hard cooked eggs and served on a tray. This is a good luncheon dish.

VOTERS OF THE FIRST WARD

I solicit your vote, support and confidence in the May election for Councilman from the First Ward. If elected I will exert every effort to serve unselfishly my ward as well as the town as a whole.

ANOTHER BIG

OCTANE BOOST

PURE-PREMIUM IS SUPER PREMIUM NOW!

Another great improvement for the gasoline that already holds over 240 different performance records.

Now higher in octane than ever before!

Your Pure Oil dealer now has a stepped-up Pure-Premium in his pumps. It has been boosted right into the super class to give your car even better performance.

Even before it was improved, Pure-Premium held more records for performance than any other gasoline, according to the National Association for Stock Cars. It has proved its record performance again and again in over 240 events for acceleration, power, mileage, and performance... in 38 makes and models of cars... over all kinds of roads... with 123 different drivers.

And now it's even better! In fact, Pure-Premium now has such a high road-octane rating (actual performance on the road) that we've been tempted to drop the word "octane" altogether and call it "Roadtane."

Here's what it means to your car. With even more anti-knock power and super quality, this clean-burning gasoline has the perfectly balanced blend to give your car record performance. What's more, it's tailored to your climate, locality, and season.

Next time you need gasoline, drive into a Pure Oil station and try Pure-Premium. It's the gasoline proved by performance again and again and again!

A great new reason to

Be sure with PURE
