

Edenton Divides With Hertford

Edenton's Aces roared from behind to end their Albemarle Conference schedule on a happy note by beating Hertford 48-46 as the Acelets dropped a thriller to the Squaws 29-26 Tuesday night at Hertford.

The Aces are 7-3 in conference play, while the Acelets stand 6-4.

Hertford moved to a 24-19 halftime lead over the Aces but Edenton made the best of Indian mistakes to move ahead in the fourth period. With a minute to go they had a 46-38 advantage. Hertford rallied to within one point at 47-46, but could do no better.

Billy Wilkins turned in 16 points for Edenton. Elton Bass grabbed 12 tallies and plenty of rebounds and Billy Cook Griffin got 10. Robert White scored 4 and Jack Bunch 3. Dave Burton got 14. Freddy Colson 11 and Bevi Tucker 10 for Hertford.

The Acelets played it cool and easy in hope of a low scoring upset, but the plans fell to pieces. Hertford led 16-13 at half time with Edenton in front 25-24 at three quarters. The Squaws got 5 points to the Acelets one in the final period.

Mary Ann Overton paced Edenton with 11. Linda Spencer got 7 and Sara Reife Smith 8. Letitia McGoogan got 15 for Hertford.

Edenton's teams will entertain Gatesville Thursday night at 7:30 o'clock.

Councilmen Hold Very Short Meeting

Continued from Page 1—Section 1
of curb and gutters. The councilmen were of the opinion that the idea of waiting until the

gutters can be constructed. The Councilmen also were favorable to a proposed policy that hereafter any requests or petition for street and sidewalk improvements will not be acted upon after the current budget is adopted. So that hereafter any requests of this nature will have to be considered at the time the budget is being prepared.

The committee on construction of a street back of the stores on the east side of Broad Street reported having met with the County Commissioners requesting 15 feet of county property as part of the street. The Commissioners agreed to further investigate the request and give a definite answer at their next meeting.

Town Clerk Ernest J. Ward, Jr., reported that the Navy Department has relinquished its mobilization rights to a little over 13 acres of the Naval Auxiliary Air Station property for use as a sewage disposal plant site. The matter is now being processed by the Department of Health, Welfare and Education, and will then go to the General Service Administration for definite action.

Aside from the above business, the Councilmen heard various reports, paid the month's bills and adjourned at about 9 o'clock.

JAYVEES WIN 7th IN ROW

Edenton's Junior Aces won their seventh straight game and pushed their record to 7-6 by whipping Hertford 40-24 Monday night on the Edenton court.

Lloyd Lassiter and Richard Hollowell each got 11 points for Edenton. Jimmy Patterson had 6, Bobby Stokely and Bill Goodwin 4 each and Cecil Fry and Jimmy Dail 2 apiece.

Woodard and Chappell scored 6 each for Hertford.

Edenton's eighth grade squad, making its first appearance, lost to Ahoskie 26-18 after leading all the way to the fourth quarter.

What is the largest "farm group" in North Carolina?

... IN STATE AFTER STATE IT'S THE GROWING GROUP OF FARM FAMILIES WHO SAVE TRADING STAMPS

By tradition America's farm families are among the country's thriftiest. So it is not surprising that for 62 years farm families have been active users of one of the oldest forms of thrift—the trading stamp. Today 70% of all farm families save trading stamps and the number is growing along with the growth of the trading stamp industry itself.

During 1957 alone, 25 million dollars' worth of trading stamp merchandise went into farm homes. Every 2 seconds a farm family is redeeming trading stamps for something it wants or needs.

At the same time that trading stamps are putting items into farmers' homes and tool sheds, they are also putting money into farm pockets. America's farmers have a stake in supplying food for 90,000 workers whose livelihood depends upon the business generated by the trading stamp industry. The industry is a customer of theirs for primary materials such as wool, cotton, leather that go into the manufacture of merchandise for stamp redemption. In fact, total farm purchases resulting from the stamp industry in 1957 were estimated at 47 million dollars—about equal to the income all U.S. farmers received for the raising of sheep and lambs that year.

Economically and personally, America's farm families are deeply interested in the trading stamp industry. They benefit not only through increased income, but are rewarded for diligence and thrift in the things they buy.
