MUSING — Were all the poets, writers and painters wiped from the face of the earth, the human race would keep on living; were all the plowmen exterminated mankind would perish. Food for the mind is a luxury, is not necessary to keep the body alive, and could be dispensed with. Food for the body is a stern necessity and must be provided or we die.

Virginian-Pilot and placed in the pages of a Bible for safe keeping. A recent parallel to the sinking of the Titanic was the tragic loss of the Hans Hedtoft off Greenland with ninety-five persons aboard. Both the Titanic and the Hans Hedtoft struck icebergs, were on their maiden voyages, and both ships were supposedly modernized and practically unsinkable.

full and strong when the commercial comes on? But a radio will do it every time—or almost every time.

THE OLD WEST — Wild Bill Hickok once tried his hand as an actor, appearing in a play in New York by Ned Buntline. Wild Bill wasn't much of an actor, so he deserted the footlights and headed back West.

INTERESTING FACT ABOUT ABOUT THE OLD WEST—The Derringer, the .41 calibre handgun so small it could be concealed in the hand, because of its diminutive size and its great striking power was nicknamed "The Little Leveler".

You can't trust Russia.

HAVE A HEART—A living symbol of the hope that modern medical and surgical techniques hold out to heart patients, Debbie Quinn, 6, is this year's "America's Valentine Girl." She is the daughter of Mr. and Mrs. James Quinn, of LaPorte, Ind. Heart Fund volunteers hope that news of Debbie's recovery from a 7½-hour heart operation some months ago will aid them in their campaign, which is climaxed by Heart Sunday, Feb. 22. At one time an invalid, Debbie today enjoys unrestricted activity.

to give it the little touches, as the old song says, to "brighten the corner where you are". Two of America's great men were born in February: Washington, who forged this country from 13 separate colonies, and Lincoln who welded it into "one nation, indivisible". To February, then falls the honor of commemorating these men with holiday fun and frolic.

A Cupid's Day party is also appropriate for this season. A gay ice cream 'n cookie Valentine Box for the party adds to the pretty table as well as being a delicious dessert. Just press creme cookies into a half-gallon brick of Cherry Vanilla ice cream and fill top and bottom with whipped cream or whipped topping. A couple of sugar wafers make the Valentine "slot" on top, and a finishing touch. Make ahead and freeze until party time.

For the Bridge club or any small gathering, a rich spread on crackers or wafers, served with a tangy fruit salad mold makes a grand slam.

Try this "Date-Nut" Spread:

temperature
1 C. chopped dates
½ C. chopped pecans
3 T. orange juice

Blend all ingredients. Chill before spreading on thin crackers. Use your strawberry flavored gelatin with fruit in a valentine shaped mold. This is delicious served with hot coffee.

As a dessert for a Lincoln Dinner, a favorite is the "Old-Time Log". Use 30 of the thin chocolate wafer cookies. Whip 2 cups heavy cream stiff and sweeten with 4 T. confectioner's sugar. Spread a spoonful on a cookie. Place another cookie on top and continue until there is a pile of cookies with whipped cream between.

Lay pile lengthwise on a serving platter. Add remaining cookies with cream and cover the roll evenly with whipped cream. Chill at least six hours. Garnish with slivers of chocolate to resemble a birch log.

Remember that "Cherry Tarts" are always the tradition in observing Washington's birthday.

There is one other idea which I think you might like. For a

"Tropical Appetizer," try this: Cut the top from a very ripe pineapple following the scallops of the shell. Hollow out pulp with a grapefruit knife and chop fine. Use ½ pound cream cheese mixed with 1½ C. pineapple. Blend well and return to the pineapple shell. Arrange the pineapple on the appetizer tray surrounded by small crackers or wafers.

It may take a little more time but it is always fun to surprise your guests with something new and tasty.

"No loss from rot with ORTHOCIDE treated seed pieces . . ."

Potato grower John Koroleski reports: "We treated our potato seed pieces with ORTHOCIDE Dust at the time of cutting. They were stored for three weeks between cutting and planting and were in the ground four weeks before come-up — without loss from rot. And the come-up was perfect in spite of a cold, wet spring."

For bigger — better yields, treat your potato seed pieces with ORTHOCIDE — Only ORTHOCIDE (captan) provides effective control of seed-rot and damp-off diseases in germinating seed pieces and seedlings. Also, this proven ORTHO fungicide makes it possible to cut potato seed pieces in advance of planting allowing you to plant full time without the daily interruption of cutting more seed pieces.
