

**Pickled Herring Breakfast Nov. 4**

Members of the Methodist Men's Club will hold a pickled herring breakfast at the church Saturday morning, November 4, from 7 to 9 o'clock. A number of these breakfasts have been held and all have been very successful, so that another large crowd is expected. Tickets are now on sale by members of the club or they can be secured from George Lewis, president of the Men's Club, who says the price will be \$1.00 for all anyone can eat.

**Prospects Bright For Rock Fish Season**

Continued from Page 1, Section 1 including both those which would be caught and those which would escape, and calculations made from tagging showed that 1,966,900 pounds were actually available.

Upon reviewing the accuracy of predictions for one fishing season and with the accumulation of additional data since then, the striped bass biologists became more confident in their ability to predict what would happen in the fishery and decided it would be of value to fishermen to have this information prior to the season.

In the striped bass fishery of Albemarle Sound beginning this month and continuing through April, 1962, prediction of things to happen are as follows:

- (1) Two and three-year-old fish will comprise 98 per cent of the catch; 2's 29 percent and 3's 69 per cent. (2) Gill nets 4 1/4 inches and larger (stretch measure), because of their prominence and ability to catch 3-year-old fish, will in the long run be the most successful gear.
- (3) Three-year-old fish weigh approximately 1 pound more than 2-year-old fish, so based upon population size of 3-year-olds, the poundage landed should be high.
- (4) What does "high" mean? Well, the total population should consist of 2,061,000 pounds of fish. This is about the same as it was in the 1960-61 fishing season, but since 3-year-old fish are present in greater numbers than other ages, more pounds of fish should be caught with less effort. The percentage of 3's in the catch will compare closely with that of 3's in the catch of 1958-59.

In summary, commercial striped bass fishermen (especially those fishing gill nets) can look forward to the best season this coming fall, winter and spring since the 1958-59 season (we trust they can recall their success that season). The total catch averaging 600,000 pounds per year for the last five years should be closer to one million pounds in the coming season. (This is exclusive of the "jumbo striper" catch in the ocean). It should be clearly understood, however, that foul weather, reduced effort in gear fishing days and dockside price received, all can affect the success of the industry. Experience of the biologists has taught them that they would be unwise indeed to try to predict the variability and degree of influence exerted by these factors.

A word of praise is due the commercial fishermen and fish dealers of North Carolina, with particular reference to those in Albemarle Sound and vicinity, for their cooperation in allowing fish to be tagged and catches to be sampled during the study.

Gratitude is the sign of noble souls. —Aesop.

**Group Meets To Consider U. S. 17**

Continued from Page 1, Section 1 south artery in preference to competing routes further to the west. Ben McDonald, news director for TV Station WECT in Wilmington, will head the delegation of visiting civic leaders, who were met at the meeting.

Joe H. Conger, Jr., president of the Edenton Chamber of Commerce and W. P. (Spec) Jones, the Highway Committee chairman, will officiate at the meeting.

The meeting is one more indication of how interest is mounting month by month in the Chesapeake Bay Bridge-Tunnel with everyone's thoughts turned to its completion date of October, 1963.

Particularly attentive to the economic meaning of this shortened bay crossing are the many business interests along the Ocean Hiway route from New York to Florida.

North Carolina business interests in the 15-county area through which the Ocean Hiway passes (U. S. 17) will further promote the many historical and recreational attractions for tourists along the entire Carolina coast.

The travel industry in North Carolina last year earned it a third place among the economic giants behind textiles and tobacco. The \$775 million income from travel surpassed both the value of the food industry and the furniture industry.

**Committees Named For Local C. Of C.**

Continued from Page 1, Section 1 marble Motor Company.

Parking and Traffic Safety Committee—Leo Lavoie, assistant chief, Edenton Police Department.

State and National Affairs Committee—Albert G. Byrum, legislative representative for Chowan County.

Highway Improvement Committee—W. P. (Spec) Jones, administrator, Chowan Hospital.

Tourist Committee—Joe Stone, owner, Colonial Motor Court.

Committee chairmen will appoint the members of their appropriate committees, the Chamber president stated, as they have in the past. "The record of the progress of the Edenton Chamber of Commerce in the new year will be largely the record of accomplishments of our Chamber's committees," said Mr. Conger. "Their accomplishments will depend to a great extent upon the care with which committees are selected."

President Conger intimated that he plans to establish a "committee on committees" this year to help organize the regular and special committees needed to carry out their work programs.

This practice serves to combine the judgment of several Chamber leaders in the important task of providing sound projects and to better insure their completion, Conger said.

Other committee chairmen will be appointed at an early date, it was learned, to head the following: Budget, Civic Affairs, Recreation, Merchants and Health.

**FIRE DESTROYS BARN**

A tobacco barn on the farm of Asa Griffin was destroyed by fire about 1 o'clock Monday afternoon. It is supposed that an electric fence set grass on fire and spread to the barn.

The Edenton Fire Department answered the alarm but was unable to save the building.
