essional and technical; clerical and sales; service occupations. There will be above-average expansion of opportunities, too, for administrative and skilled workers. "But semi-skilled and unskilled workers and those who make their living on farms will find their occupations lagging behind the growth and even contracting in the face of it."

EDENTON GROUP WILL ATTEND BIBLE COURSE
Mr. and Mrs. Joe C. Hall and family will be among the more than 20 persons from Edenton who will be leaving Thursday and Friday to attend an advanced Bible course in Greensboro July 13-15.

The course, sponsored by the Watkower Society of New York will be held in the huge Greensboro Memorial Coliseum where more than 6,000 people from some 20 states are expected to attend.

Hall announced that due to many being out of town this week-end, it has been necessary to cancel all meetings held at the Kingdom Hall on Granville Street. All meetings will resume Tuesday, July 17th.

CHRISTIAN SCIENCE
Freedom from enslavement of every kind is available through spiritual understanding of the mighty power of God. This is the encouraging theme of the Lesson-Sermon entitled "God" which will be presented at Christian Science churches Sunday.

Bible readings will include this verse (Revelation 11): "We give thee thanks, O Lord God Almighty, which art, and wast, and art to come; because thou hast taken to thee thy great power, and hast reigned."
From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this selection will also be read (p. 228): "The enslavement of man is not legitimate. It will cease when man enters into his heritage of freedom, his God-given dominion over the material senses. Mortals will some day assert their freedom in the name of Almighty God."

WISDOM of the Ages

William Penn

"Knowledge is the treasure, but judgment is the treasure of a wise man."

cause more and more students are going on to graduate work." Nevertheless, the magazine warns, "Unemployment, in spite of everything the federal government is doing to fight it, still runs at about four to five million—as much as one in every 20 workers including many who haven't been able to find jobs for many months.

"To make matters worse for the hard core of unemployed, newcomers are pouring into the labor force in greater numbers than ever before. This year's college graduating class was the largest in history, and from now on each June's crop of graduates will set a new record."

New materials, new machines, new discoveries in medicine, weather and space create a demand for multitudes of trained workers, the article continues. "Gradually, all occupations are being upgraded. Even the simplest of office tasks will soon be done by machines, and running the machines will require training. Jobs for the unskilled and the untrained will diminish steadily and just about vanish."

By 1965, the magazine predicts, demand for high-level workers will be so great that for every seven professional and technical jobs there will be only five available qualified workers. But, "for those who haven't acquired skills or education, there will be three such workers for every two jobs available."

According to Changing Times, jobs will grow at the fastest rate in these categories: Professional and technical; clerical and sales; service occupations.

Let's go to Church Sunday

Sunday School Lesson

WHY DOES GOD LET IT HAPPEN?
International Sunday School Lesson for July 15, 1962.

Memory Selection: "He whose soul is not upright in him shall fail, but the righteous shall live by his faith." (Habakkuk).
Lesson Text: Habakkuk

Today we devote our energies to considering the problem of suffering in the light of Habakkuk's message.

We know nothing about the man Habakkuk except that we can gather from reading this book, and from his book we know that Habakkuk was a man who tried to think through the problems of his religious faith. It seemed to Habakkuk that the wicked prospered, while the righteous suffered. He presented this problem to God, and received assurance that in the long run righteousness would triumph. The cause of his perplexity was that he had taken too short a view.

This is often our mistake, too. Deceptive measures and crooked business practices may bring temporary success. In the end, however, they bring about their own ruin, and it sometimes comes more quickly than might be expected. This faith is the strength of men who fight for a righteous cause. It nerves them to continue in the face of defeat after defeat, for each knows that somehow, sometime, the cause will win. This is as sure as that there is a God in heaven.

There is a great deal of sentiment among Christians of some groups in our time, however, to "leave it all to God." In every age, some have felt that men could do nothing and that God had to do everything. But while it is true in a profound sense to say that ultimately everything we do is a result of God, it is also true to say that God expects his children to use their intelligence and initiative to solve pressing problems. FISHERMEN

Dad and Butch are both getting a big kick out of this. If Butch catches a fish—even a minnow—it's hard to say who will be the prouder.

We suspect, though, that it will be Dad. He'd probably give this little man all the fish in the ocean, if he could! He is giving him things that really count. Good clean fun and happiness, a sense of sportsmanship, and that special man-to-man bond between father and son. And because his son means so much to him, Dad takes Butch to the services of their church each week.

Boys have to do a lot of growing to get to be men. It takes a lot to keep them growing the right way. Weekly church and church school attendance is a big step forward. Don't keep your child from taking it!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plans to go to church regularly and read your Bible daily.

Prospects Bright For Graduate Jobs

Employment Opportunities Call for Trained, Skilled Workers

Employment prospects for the 1962 college graduate are bright and will continue to improve, but his untrained neighbor will find the going rocky, according to Changing Times, the Kiplinger Magazine.

An article in the current issue of the magazine notes that company recruiters were swarming on college campuses this spring with more jobs than were offered a year ago and with higher starting salaries. Paradoxically, the magazine reports, the prospect for untrained job seekers—youngsters who dropped out of high school before graduating and those who got no education after high school—are gloomy.

Technical and scientific starting salaries for college graduates averaged around \$560 a month and non technical about \$475, the article states. "Most interesting increases in money offers were for liberal arts graduates, who are usually at the bottom of the salary heap in campus hiring—this year recruiters were having a hard time filling their quotas—first, because there were more openings, and second, because more and more students are going on to graduate work."
