

AROUND THE FARMS IN CHOWAN COUNTY

By C. W. OVERMAN, Chowan County Agent

ASCS Community Committee Elections: All farmers should remember that Community Committee elections are in progress this week-end and be sure to cast their ballots. The election is being held by mail. Each eligible farmer has received a ballot with envelopes. Mark the ballot, place the ballot in the plain envelope and seal then place the envelope in the window envelope and mail back to the ASCS office. No postage stamp is required. This is very simple. Voting is a privilege and also a responsibility. Let's make the vote in Chowan County 100 percent this year and prove that we are interested.

Gasoline Tax Refunds: September is the last month for filing applications for tax refund on farm used gasoline for the last period. The Federal application covers gasoline used July 1, 1961 through June 30, 1962. The State application covers the period January 1, 1962 through June 30, 1962. This money is yours if you apply for it. Farmers who appreciate this privilege will make use of it by filing their applications.

Farm Bureau Membership Drive: The Farm Bureau membership drive is on in Chowan County. Yes, the membership fee is ten dollars, double that of last year, but think about what you are doing. You now have a tri-county Farm Bureau Office in Hertford to serve Chowan, Gates and Perquimans counties. This provides service which you have not had before. Someone has said, "United We Stand, Divided We Fall". It is through joining your efforts together you are able to accomplish progress that you are not able to accomplish individually. Give careful consideration to your farm organization before deciding not to maintain your membership or join.

Watch For Garden Insects: People should watch their gardens carefully for insects. The corn earworm is working on tomatoes and many other crops. The cabbage looper, the webworm and many other insects are working on cabbage, collards,

greens and other crops. Two good and safe insecticides to use are four percent Malathion dust and five percent Sevin dust. These materials may also be obtained in a spray material. The insecticide should be applied as soon as insects are observed, not wait until considerable damage has been done.

Now is a good time to side-dress and keep present vegetables growing as well as make plantings for a good fall and winter garden. Plant greens, collards, turnips, radish and spinach. Set onion sets, cabbage and collard plants. A good garden provides living at home and boarding there, too.

Pasture Renovation: A decline in quality and quantity of grazing is a problem on many farms. Through lack of adequate fertilization and liming and because of unfavorable grazing management methods, clovers and desirable species of grasses have been lost. What should we do?

First, have the soil tested to determine the lime and fertilizer needs of the soil. Remove the excess foliage by mowing or very close grazing. Apply the lime and fertilizer needed. Tear up the sod with a disc harrow working in the lime and fertilizer. Seed the legumes and grasses as desired at the rates recommended. Take care of the pasture by a good systematic rotation of grazing. Top dress the pasture each fall as recommended. Control weeds, most weeds can be controlled by using herbicides as recommended.

Scale On Ornamentals: Florida Wax Scale and some other scales are beginning to show on shrubs. Spray thoroughly with a mixture of three teaspoonsful of twenty-five percent Malathion in a gallon of soapy water. Repeated applications may be needed if scale reappears. "A Stitch in Time Saves Nine" so don't wait until scale has weakened plants but spray at the first sign of the pests.

CHRISTIAN SCIENCE

The indestructible relationship of God and man will be emphasized at Christian Science church services Sunday.

Scriptural selections in the Lesson-Sermon on "Man" include the following verse (Psalm 18): "It is God that girdeth me with strength, and maketh my way perfect."

A citation to be read from "Science and Health With Key to the Scriptures" by Mary Baker Eddy states (p. 470): "The relations of God and man, divine Principle and idea, are indestructible in Science; and Science knows no lapse from nor return to harmony, but holds the divine order or spiritual law, in which God and all that He creates are perfect and eternal, to have remained unchanged in its eternal history."

Married Sunday In Raleigh

MRS. HAYWOOD THOMAS HOLLOWELL, JR.

Miss Beatrice Marie Burnette and Haywood Thomas Hollowell, Jr., were married Sunday, September 2, at the home of the bride's brother and sister-in-law, Mr. and Mrs. C. A. Burnette in Raleigh, N. C.

The Rev. Rufus Potts officiated. The bride is the daughter of Mr. and Mrs. R. A. Burnette of Youngsville, N. C.

The bridegroom is the son of Mr. and Mrs. H. T. Hollowell, Sr., of Tyner.

Given in marriage by her brother, the bride wore a street length gown of silk organza over taffeta with a lace top. She carried a white Bible topped with an orchid.

Mrs. Pearl Burnette, sister-in-law of the bride, was matron of honor.

H. T. Hollowell, Sr., father of the bridegroom, was best man.

The bride is a graduate of Youngsville High School and was employed as a clerk with the Motor Vehicles Department

in Raleigh. The bridegroom is a graduate of Chowan High School and is stationed in Fayetteville with the State Highway Patrol.

After a wedding trip the couple will make their home in Fayetteville.

Mr. and Mrs. C. A. Burnette entertained at a reception immediately following the wedding. Assisting in the serving were Mrs. Doris Jean Hicks, Miss Frances Walters, Mrs. Shelby Jean Morris and Mrs. Janet Morris.

We do not need more intellectual power, we need more spiritual power. —Calvin Coolidge.
