'64 Automobile License Plates Go On Sale Thursday, January 2

Issuance of new 1964 automobile license plates will begin Thursday, January 2 through the local license plate agency located at 501 South Broad Street in Edenton. Mrs. Goldie L. Niblett is the local agent and urges automobile owners to secure their licenses as early as possible.

To obtain a 1964 North Carolina license plate, the owner of a self-propelled motor vehicle, unless he has qualified as a self-insurer or filed a bond, must have and certify that he has liability insurance with a company licensed to write liability insurance in North Carolina.

Certification is by Form FR-2 which appears on the reverse side of the 1964 license application card. The name of the insurance company, the policy number and the effective date of the policy is required.

Commissioner of Motor Vehicles, Edward Scheidt, stresses the importance of reading the instructions given for obtaining a new plate and supplying accurately all the information required. He particularly cautions against giving an insurance agent's name or agency name for that of the insurance company and recommends that the full name of the insurance company and the policy number be taken direct from the policy.

Motor vehicle owners are urged by the licensing officials and the local license plate agents to complete the FR-2 certification before the application card is presented for a new license plate. Issuance of new tags will move slowly unless this is done.

Mr. Schedit warns that the penalty for certifying falsely that liability insurance is in effect is revocation of plate, suspension of driver's license for 30 days and fine or imprisonment.
